## BATTLESHIP Coffee

In a lot of homes Battleship Coffee beats the sun in brightening up the day. It's a coffee a grocer's proud to sell.

Coffee—The Perfect Drink

THE CANBY, ACH & CANBY CO.  
DAYTON, OHIO

## Here's a Real Treat

GIVE the family a chocolate pudding made rich and creamy with Every Day Milk. It will be so full of pure, milk flavor that you yourself will wonder how you made it at so little expense.

You see, a sixteen ounce tin of Every Day Milk is really all the cream, all the richness, all the butter fat, of over a quart of rich pure milk, only most of the water has been taken out—and nothing has been added.

My family says it looks like cream—and it takes the place of cream.

It makes me independent of the ice man and the milk man. It is always handy—always germ-free and pure—always ready for use—and always has the same delicious cream-like flavor.

Every day use Every Day.

## EVERY DAY MILK

Save your Every Day Labels

You can get valuable premiums FREE by our plan of sharing profits with you. Write for interesting illustrated book, "A Thousand and One Free Premiums," Every Day Premium Dept., 50 Franklin Street, New York.

## REZNOR

REZNOR Sanitary Gas Heaters will burn and give off heat even though the gas is so low that the kitchen range cannot be lighted. They spread their comforting heat where it is needed—along the cold floors.

Reznors do not vitiate the air—there is no odor. They are safe, clean and economical. Over a million in use.

## NEWARK VOTERS WILL STRUGGLE WITH 9 BALLOTS

Multitude of Propositions Will Be Submitted to Citizens at November Election—Initiated Laws Are Submitted.

Voters at the election on Tuesday, November 4, will be handed only nine ballots when they apply at the booths in the various precincts to exercise their right of franchise. The longest ballot will be 25 inches long. Citizens will be asked to read the various amendments and referendum questions on the ballot they had better take along their lunchbox if they go to the polls early or their supporters they go late.

There will be the municipal ticket, the township ticket, the board of education ballot, the judicial, the additional tax levy special assessment of two mills for road purposes, the initiative law granting the double platoon system to the fire stations of the city, two state referendums, one the Crabbe act ratifying the national prohibition amendment to the constitution, and the other the classification of property for taxation purposes.

Next there is a proposed amendment to the constitution, proposed by an initiative petition, which would if passed permit the manufacture of beverages containing two and three-fourth percent or less of alcohol. A second article attached to this ballot is to vote on the proposition to repeal state-wide prohibition.

It might be well for the voter to seek information on a couple of the propositions before election day. The explanation through a part of the explanation on the ballot it is still a question in your mind what it is all about. Pencil sharpeners will be furnished by the election officials.

## SAFE HITS

(Continued From Page 1)  
One. Duncan doubled to right center hanging in Daubert and Roush home. It was a mighty wallop. Popf up. Foul strike one. Felsch run way back and caught Kopp's long fly. Two runs. Two hits. No errors.

Fourth Inning.  
First half—Weaver up. Duncan took Weavers line drive that went almost to the left field crowd. Roush up. Roush went back almost the grandstand and nailed Jackson's high foul. Felsch up. Strike one. Felsch singled through the pitcher's box, the ball rolling to center. Gandil up. Ball two. Ball three. Strike one. Kopp threw out Gandil stopping in time to get his grounder after starting for second to cover the bag as Felsch went down. No runs. One hit. No errors.

Second half—Neale up. Neale tripled to right center. There was an argument that Neale didn't touch one of the bases, but the umpire decided in favor of the claim. Roush up. Roush sent an easy bouncer that E. Collins grabbed and tossed him out at first. Neale holding third. Ruether up. Ball one. Strike one. Ruether doubled over the third base sack the ball hitting the left field pavilion. Neale scoring. Rath drove an easy one to Risberg but the latter hit Ruether going to third. In his attempt to put him out, Ruether scored. Rath taking second. Rath stole third. Daubert up. Ball one. Ball two. Daubert hoisted to Jackson and Rath was caught at the plate for a double play, Schalk getting Roush. Roush threw to Gandil. Gandil failed to put Kopp's throw on him. John Collins up. J. Collins fled to Roush and the latter's throw was so fast that Risberg who had started home turned back and held third. E. Collins up. Ball one. Ball two. Foul strike one. Ring began warming up for Cincinnati on the side lines. Foul strike two. Foul. E. Collins fled to Roush and Risberg scored. Schalk failed to go to third on the play and was run down to second. Groh sent a high fly to Felsch. Roush up. Strike one. Ball one. Strike two. J. Collins, after making a good run for it, captured Roush's fly. Duncan up. Ball one. Ball two. Felsch went way back and misjudged Duncan's fly, getting his hands on it but dropping it. Duncan reaching third. Kopp up. Risberg threw out Kopp. No runs. No hits. One error.

Fifth Inning.  
First half—Risberg up. Ball one. Ball two. Ball three. Strike one. Roush walked. Ruether failing to put the ball over the plate. Schalk up. Ball one. Foul strike one. Ball two. Foul strike two. Ball three. Foul. Ball four. Schalk also walked. Kerr up. Ruether appeared to be coming instead. Strike one. Kerr singled, advancing both runners a base. Risberg taking third and Schalk scoring. Roush threw to Gandil. Gandil failed to put Kopp's throw on him. John Collins up. J. Collins fled to Roush and the latter's throw was so fast that Risberg who had started home turned back and held third. E. Collins up. Ball one. Ball two. Foul strike one. Ring began warming up for Cincinnati on the side lines. Foul strike two. Foul. E. Collins fled to Roush and Risberg scored. Schalk failed to go to third on the play and was run down to second. Groh sent a high fly to Felsch. Roush up. Strike one. Ball one. Strike two. J. Collins, after making a good run for it, captured Roush's fly. Duncan up. Ball one. Ball two. Felsch went way back and misjudged Duncan's fly, getting his hands on it but dropping it. Duncan reaching third. Kopp up. Risberg threw out Kopp. No runs. No hits. One error.

Sixth Inning.  
First half—Weaver up. Ball one. Foul strike one. Strike two. Weaver hoisted a Texas leaguer that went for a double when Kopp and Duncan played an Alphonse-Gaston act. Jackson singled into center and Weaver crossed the plate. Felsch up strike one. Ball one. Foul strike two. Ball two. Foul. Felsch doubled to the center field crowd. Jackson scoring. This was enough for Ruether and Ring relieved him on the pitching mound. Gandil up. Ball one. Foul strike one. Strike two. Ring was very slow and deliberate. Foul. Ball two. Gandil hoisted to Daubert who got the ball in back of first base. Felsch holding second. Risberg up. Ball one. Kopp took Risberg's grounder and threw to Daubert, putting him out. Felsch taking third. Schalk up. Strike one. Schalk singled between short and third, scoring Felsch and tying the score. Kerr up. Ball one. Foul strike one. Strike two. Schalk stole second. Ball two. Groh grabbed Kerr's grounder and retired the side by throwing him out at first. Groh made a great throw and threw out. Three runs. Four hits. No errors. The Sox hit Ruether hard and their drives off Ring were also of the wallop character.

Second half—Neale up. Strike one. Ball one. Ball two. Foul strike two. Neale singled through the pitcher's box. The ball bounded a little too high for Kerr. Roush followed Neale. Ball one. J. Collins took Roush's line drive. Neale holding first. Foul strike one. Foul strike two. The crowd began to handclap in unison. Ball one. Foul strike two. Ring struck out, making a healthy swing at the third strike, but missing. Rath up. Ball one. Ball two. Neale was out stealing. Schalk to Risberg. No runs. One hit. No errors.

Seventh Inning.  
First half—Liebold batting for J. Collins and will play right field for Chicago. Liebold up. Ball one. Strike one. Ball two. Kopp came over fast and took Liebold's grounder, throwing him out at first. Eddie Collins up. Ball one. Strike one. E. Collins hoisted a high one that Roush got under and caught. Weaver up. Weaver batted left handed and Rath took his grounder and threw him out at first. No runs. Two hits. No errors.

Second half—Rath up. Strike one. Ball one. Ball two. Rath hoisted one into short left for a Texas league single. Jackson, in a gallant attempt and turned a somersault, trying to get it, but barely missed. Daubert up. Strike one. Daubert attempted to sacrifice the first ball but it rolled foul. He laid the next two down for a sacrifice. Kerr for a pass. Rath on second. Roush forced Groh at second. Itisberg to Eddie Collins who completed a double play by throwing to Gandil and Roush. No runs. One hit. No errors.

Eighth Inning.  
First half—Jackson up. Ball one. The outfielders played deep for Jackson. Ball two. Ball three. Strike one. Ball four. Jackson walks. Ring temporarily lost control and passed Jackson, the first man up in this inning. Felsch sent a high fly to Neale. Jackson holding first. Gandil up. Ball one. Ball two. Ball three. Ball four. Ring also walked Gandil and appeared very unsteady. Jackson on second. Risberg up. Strike one. Ball one. Strike two. Ball two. Foul. Felsch scored. Roush came in fast got Risberg's line drive and then ran to second, tossed the ball to Rath, retiring Jackson for a double. It was a wonderful catch and looked safe, so much so that Jackson rounded third. No runs. No hits. No errors.

Second half—Duncan up. Gandil ran almost to the right field side seats and took Duncan's foul. Kopp up. Ball one. Ball two. Strike one. Foul strike two. Kopp changed his bat. Kopp lined out to Kerr. Kerr apparently had his hand in catching Kopp's liner. Rath resumed pitching and singled to left on his first pitched ball. Roush up. Ball one. Strike one. Roush singled, the ball bouncing out to Kerr's hands. Neale going to second. Ring up. Risberg raised Ring's grasshopper, and tossing to Eddie Collins forced Roush for the third out. No runs. Two hits. No errors.

Ninth Inning.  
First half—Schalk up. Strike one. Strike two. Ball one. Strike three. Schalk fanned, the final strike being called on him. Kerr up. Ball one. Kerr drove to Ring who tossed to Daubert, getting him. Liebold up. Ball one. Ball two. Ball three. Strike one. Liebold walked. Ring was having trouble finding the plate. Liebold stole second, beating the throw easily after getting a big lead. Collins up. Ball one. Ball two. E. Collins lifted a high fly to Roush. No runs. No hits. No errors.

## BETTERS NAME OWN ODDS AT CINCINNATI

Redland Field, Cincinnati, Oct. 7.—Perfect baseball weather, with the sun shining brilliantly and a cloudless sky greeted the fans that journeyed to the park two hours before the beginning of the sixth game of the world series of 1919 between the Reds and White Sox here today.

At noon the pavilions were almost filled to capacity but the bleacherettes seemed slow in arriving and while the right field stand was half filled, the left field bleachers were empty. However, the crowd appeared in a gay mood and each selection played by the band met with much applause.

The band marched around the field several times, stopping for a single selection before each stand. The weather improved considerably during the morning and the thermometer bid fair to reach 80 degrees before game time. The crowds began to gather at the ticket offices of Redland Field at daybreak today, and two hours later several thousand persons were in line. Only unreserved seats and standing room tickets were for sale, all the reserved seats having been purchased before the series opened. From the interest taken in the sixth game and what may be the last game, it appeared that the largest crowd that has witnessed any game in Cincinnati, would be at the ball park this afternoon.

Both Managers Moran and Gleason were surrounded by friends at their hotels as soon as they put in an appearance there this morning. Manager Moran stated that he had no reason to believe that anything would happen with his pitching Roush today and that he was convinced that it would all be over tonight.

Manager Gleason said he would work Kerr on the mound for the White Sox and that his only hope was that the Sox would show their true form and bat and play the kind of baseball that won the American League pennant for them. "If they do this we have an outside chance of winning four straight games and don't be too much surprised if we do it. The team has not been playing the ball in this style and of course if they do not show up better in today's game all will be lost. However, I know that they can beat the Reds if they will play the ball they are capable of."

The betting today ranged from 7 to 5 to 8 to 5 with the Reds as the favorites, while one could almost name his own odds that they would win the series.

There were indications that quite a large number of tickets had found their way into the hands of scalpers, but those who wanted to go were slow to buy, hoping that the price asked for tickets would fall considerably before game time. The scalpers also ran into an unexpected situation when quite a number of the Chicago fans who came down for the game began to dispose of tickets that had been entrusted to them by Chicago friends who took in the first two games, but did not come down for the third game. These tickets as a rule were sold at the price they cost the purchaser.

The weather improved as the morning wore on and gave every indication of being ideal for baseball although the rain remained a slight threat in the air. The Sox took the field for practice at 1:15 p. m. Kerr took ninth position in the batting order while Schalk was in his usual place.

The band played "There'll be a Hot Time in the Old Town Tonight", and the crowd cheered.

At 1:40 the Reds took the field for practice and the Sox followed. The right field stands were filling rapidly. At 1:48 the Reds took the field for official practice. At 1:46 the Sox relieved them at practice and the band once more played "Please Go Way and Let Me Sleep."

## MILITARY FUNERAL FOR FORMER DENISON GIRL

A cablegram from Paris told of the funeral of Miss Ann Zollars, of Canton, but well known in Newark, who died while doing war work. The message stated the funeral was held with full military honors Monday afternoon at 3 o'clock at the American church. Arrangements have been made to send the body to this country. Mrs. Kitzridge, a friend of the deceased, who was the mother of the same unit, will accompany the body to America.

## EX-TRUSTEE OF DENISON DIES IN CINCINNATI

Gershon Moore Peters, who founded the Peters Cartridge Company and who for 25 years was president of the King Powder company, Kings Mills, O., died of apoplexy at his home in Cincinnati Monday. Mr. Peters was born in Xenia, 76 years ago. He was graduated from Denison University in 1887 and Rochester Theological Seminary in 1891. His early years were spent in the ministry. For several years Mr. Peters was president of the board of trustees of Denison University and was well known in Newark and Granville.

## 15,000 BOLSHEVIKI CAPTURED. London, Oct. 7.—The capture of 15,000 Bolsheviki during operations around Voronezh by General Denikine's troops are claimed in a communique received by wireless from the general headquarters today.

## PLANT IS DESTROYED. Baltimore, Oct. 7.—The plant of the Standard Cuano company, at Curtis Bay, a suburb, was partially destroyed by fire of undetermined origin today and two negro workmen lost their lives. An official of the company estimated the loss at \$1,500,000.

## WIRE BRIEFS

Bridgeport—Mines idle as result of sympathetic strike for Thomas J. Mooney.

Chardon—Mayor Pachin, Councilman Rhodes and Attorney Postwick indicted by grand jury for black mail.

Canton—Fire destroys planing mill; loss \$200,000.

Oakland—Five wounded in street car strike rioting.

New York—Steamer Lexington rammed by submarine.

Halifax—American steamer Polarine asks for help.

Chainsburg, Va.—Four students sentenced to jail for hazing a freshman with a bed slat.

Rome—Orders issued for withdrawal of American ships from Spalato.

Washington—Reports persist that Henry Fletcher is to be transferred to Rome.

Flash—My love for you is like that rose in your hair, fresh, tender, and—Flo—Artificial—Pearson's.

## AFTER TEN YEARS DISCOVERED JUST THE RIGHT THING

Ohio Citizen, 70 Years Old, at Last  
Overcome Backache, Nervousness,  
Lazy Liver, Coated Tongue  
and Unsound Sleep.

### FULL OF ENERGY.

Declares New Herb Juice Remedy,  
Dreco, Has Won Him Worlds  
of Good.

"For the past ten years I've searched for a remedy to clear the coating from my tongue, rouse my liver, and give me some energy and strength," says Mr. Lewis Gossell of 318 Second street, Columbus, Ohio, formerly of Newark, Ohio.

"When I was a boy (I'm 70 now), my mother depended on roots and herbs for her medicine, so when I saw Dreco advertised as an herbal medicine, I bought a bottle, and I'm completely relieved from that drowsy, sluggish feeling, and am full of energy. I know sleep all night long, whereas before I was nervous and restless; never able to get to sleep before the early hours of the morning. My bowels were badly constipated, but now the action is free and easy. This is the first time in ten years that my tongue has been clear of that fuzzy coating, and my breath is pure and sweet. My liver acts fine, and my stomach feels perfectly easy now, with no puffed up sensation. I'm happy to once more feel perfectly healthy and it's all due to the splendid action of Dreco."

The old fashioned remedies, made from roots and herbs, are the best for any one to take. Dreco is made from twelve different roots and herbs, barks and berries. These act on the stomach, bowels and kidneys and purify the blood. Dreco knocks rheumatism out shortly; relieves catarrh of the head and stomach; makes you sleep soundly and creates a good appetite. As a blood purifier nothing can equal Dreco. It puts a stop to boils, eczema and other blood affections.

All good druggists now sell Dreco and it is highly recommended in Newark by Evans Cut-late drug store.—Advt.

## PROPOSED

(Continued From Page 1)

Two matters which would come properly under the head of miscellaneous business were then advanced out of the regular order of business. Mr. Baizer, representing a mausoleum company was given permission to present his proposition to the council at the next regular meeting and it was also decided to receive other similar propositions which might be made.

Mrs. Weakley asked that council authorize the director of public service to erect a street light on Tenth street between Church and Locust streets. She also asked that repairs be made in the street on Leonard avenue.

City Auditor A. Nelson Dodd reported the cash balance in the various operating funds of the city on the first day of the present month, giving balances that remained in these funds on the same date one year ago. According to the report the safety and health funds are not in a flourishing condition and it will require some manipulation to secure the money to meet the salaries of the police and fire departments. The statement follows:

General fund...	\$27,023.38	\$25,322.73
Public Safety...	17,946.55	4,779.99
Public Health...	1,253.03	227.78
Public Service...	24,511.37	13,501.10
Water Works...	173.00	1,446.03
Cemetery...	2,544.44	5,019.79

The above figures help to show the financial trend in the different departments; and by taking into consideration a few other figures we can reasonably estimate the balances that will remain at the end of the fiscal year. It is, of course, impossible for me to give details in a report of this kind; but suffice it to say that the general fund ought to have a balance of approximately \$20,000 at the end of this year, and that by the end of the year 1920 this balance may be wiped out entirely.

The public safety fund, with its balance of \$47,799.99 on Oct. 1st will have a deficit before the end of the present month, as about \$2800 will be required for salaries alone for each half of the month. It should be borne in mind, too, that the levy for next year is considerably less than for the present year for this fund, and that the amount to be produced will just about take care of the requirements for six months.

The public service department will do well to make their balance of \$13,501.10 last during the next three months. The actual expenditures in that department during the same period last year were in round numbers \$1,500. The levy for this fund for next year is a little more than one-half that of this year, and even with the increased duplicate will not produce more than sufficient funds for six months' requirements unless there is a material reduction of expenditures over those of the past year.

The appropriations for salaries in the health department have been exhausted and the small balance of \$227.78 will not begin to cover other items of expense belonging to that department. It is impossible for me to make an estimate at this time of the deficit in the health fund as I have not received vouchers from that department covering all their expenses.

City Solicitor H. C. Ashcraft reported that he had received communications from the superintendents of both the B. & O. and P. C. & St. L. Railroad companies relative to the blocking of crossings in this city and that they would take necessary action to back up the city in its effort to abate the nuisance; and that they would do everything possible to break up the excessive blocking of the crossings.

City Engineer C. H. Wells reported that complaint had been made to him of the inadequate size of the Hudson avenue sewer north of North street, this condition causing the sewage to back into the cellars of many property owners. Engineer Wells proposed that a relief sewer be constructed from a man-hole in Elizabeth street through a private right of way and Manning street to the Maple avenue sewer. He estimated the cost at \$3,150, and recommended that authority to construct the sewer be given the director of public service. The report was received and filed with the recommendation that it be complied with.

Mrs. Weekley, a property owner in Indiana street, who was present at the meeting was given permission to address the council on the paving proposition and stated that she did not object to the improvement in fact she favored it and was most anxious to see it done but she did object to the signing of a petition which would cause her perhaps to vacate a portion of her property. The present line of the street had stood for 46 years and she had accepted and paid for grades and pave-

ments authorized by the city. She also stated that something ought to be done about the bridge built on the abutments of the abandoned old Steubenville and Indiana railroad right of way, which she classed as antique and a detriment to the thoroughfare, used perhaps as much as any street in the city. Engineer Wells reported that he had received a communication from the local attorneys of the Ohio Electric Railroad company, referring to the ordinance recently enacted relating to the erection of steel poles for the trolley wires in East Main street, and which the attorneys claimed invalid, because the city did not agree to share one-third of the cost. The matter was referred to the laws committee.

The eleventh annual report of the Newark Public Library, from September 16, 1918, to September 16, 1919, was submitted by Librarian Gertrude Sook, and reviewed the work of the library of the past year. It was received and filed.

A petition signed by James McCarthy and 29 others was presented which asked for the improvement of Bowers avenue by curbing and paving. It was referred to the street committee.

A communication from Henry Richardson requested permission to place cinders in an alley leading off Union street and the same was granted.

An ordinance by Councilman Keyes was passed under suspension of the rules granting permission to Fred

Katzmeyer to install a gasoline tank in front of 391-392 West Main street.

A second ordinance by Keys, Knauber and Faust asked that a special assessment be levied for the improvement of Arlington avenue from the first alley east of Cedar street to Oakwood avenue. It was passed under a suspension of the rules.

The following resolutions were adopted:

By Baker—Granting permission to E. S. Randolph and Alva Reynolds to construct a private sewer in Western avenue.

By Knauber—Requesting and authorizing the director of public service to construct a relief drainage sewer in Hudson avenue.

foot passengers.

By Faust—Authorizing and directing the director of public service to remove a telephone pole in front of 580 North Fourth street.

By Keyes, Knauber and Faust—Awarding \$25,000 worth of city's portion bonds to the Newark Trust company at its bid of accrued interest and a premium of \$75.

By Knauber—Authorizing and directing the director of public service to communicate with the necessary officials relative to the laying of a continuous track of the Ohio Electric railway from Second street to Cedar street.

By Newark—Declaring it necessary to construct a relief drainage sewer in Hudson avenue.

By Redman—Granting permission to H. B. Morris to construct a driveway into his residence property at 23 Dewey avenue.

By Keyes—Authorizing and directing the city auditor to make up a financial statement of the city from July 1, 1918, according to house bill No. 567, passed June 18, 1918.

Under the head of miscellaneous business Councilman Knauber recommended that two buckeye trees be planted in the court house park and that they be known as memorial trees, one for the army and the other for the navy.

Councilman Ashbrook requested that the service director furnish cinders for several streets in the South End and Councilman Baker requested that the

service director see to it that a number of pavements be repaired in Western avenue before that thoroughfare is curbed and paved.

Then came the staging of the regular bi-weekly political propaganda by the leading representatives of the O. O. F. in the city council, Messrs. Newkirk and Riggs. The former took the floor and demanded that an investigation of the contracts for street paving be made and that a committee be appointed for that purpose. He wanted to know why the contracts were being held up by injunction. Councilman Riggs also wanted to know and seconded his colleague's motion that an investigation committee be appointed. President Williams named Newkirk, Keyes and Faust.

# 1886 CARROLL'S 1919

## TODAY MARKS THE CLOSE OF OUR THIRTYTHIRD YEAR OF MERCHANDISING IN NEWARK

### IT HAS BEEN SAID THAT:--

THERE ARE BUT THREE PERSONS THAT HAVE THE RIGHT TO LAY US ASIDE—  
the Doctor—the Clergyman—and the Undertaker.  
In every man there is that which does not grow old if he did but know it.

To suffer one's self to be talked into feeling old, and therefore to lay aside one's occupation and to settle down into ease and inactivity, is in many observable instances to hasten the years and hurry forward the end of life.

Rust is a greater destroyer than moths.

Do not step out of the ranks of interest in the events of the day and hour.

Go straight on in your own way, and the nobodies, the mere talkers, will get out of your way.

Keep the "boy feeling" you have always had and live as Gladstone did, with a hope of a hundred years.

This store shows all over that it is still young. Isn't it so?

LAST DECEMBER, AT THE BOTTOM OF AN ADVERTISEMENT ANNOUNCING THE CLOSING OUT OF ALL MERCHANDISE, IN ORDER THAT WE MIGHT DISCONTINUE BUSINESS IN THE BUILDING WE THEN OCCUPIED, THERE APPEARED THIS STATEMENT:

"While we have decided to discontinue this business in our present location, and we will give up these rooms on April 1st, we sincerely hope at some future time, when conditions permit, to resume our pleasant business relations.

We believe that THE BEST IS NONE TOO GOOD FOR YOU and, should we decide to again engage in the sale of Women's Apparel in Newark, THERE WILL BE NO BACKWARD STEP, and you can depend upon our giving you a grander, better store than ever and one of which any city might be proud."

At the earnest solicitation of many friends and patrons, we decided to carry this into action, and early in January we purchased the old O. G. King homestead, No. 53 to No. 64 Hudson Avenue, and began the erection of a fine new home for this store.

## We had hoped to have Our New Store Ready for opening upon this OUR THIRTYTHIRD ANNIVERSARY

BUT IN ORDER TO LIVE UP TO OUR PROMISE, "THAT THE BEST IS NONE TOO GOOD" for our patrons, WE ARE SPARING NEITHER TIME NOR MONEY ON OUR NEW STORE, which we promise you will be AS GOOD AS ANY IN THE COUNTRY, and where we shall continue our policy announced 33 years ago, as put into operation by the present owner—

The Best Merchandise To Be Obtained Anywhere.  
One Price and That the Lowest.  
All Goods Marked In Plain Figures.

Until our new building is completed, we solicit a continuation of your valued patronage in our

### Temporary Locations:--

36 SOUTH THIRD STREET FOR

DRY GOODS - WOMEN'S APPAREL - RUGS and DRAPERIES

56 NORTH THIRD STREET FOR

VICTROLAS and VICTOR RECORDS

We do not solicit your business, however, merely on the basis we are an old and honorable concern.

We have kept pace with modern conditions, made changes where necessary, and ask your patronage today because we feel assured that you cannot buy more advantageously elsewhere.

# JOHN J. CARROLL

## DEMOCRATIC TICKET.

For Mayor—Herbert A. Atherton.  
 For Municipal Judge—Frank A. Bolton.  
 For President of Council—R. L. Williams.  
 For Auditor—Bert O. Horton.  
 For City Solicitor—Henry C. Ashcraft.  
 For Treasurer—Guy W. Lawyer.  
 For Councilmen at Large—Peter W. Faust, O. George Hand, Walter D. Welker.  
 Ward Councilmen—Second ward, Fred Volverson; Third ward, J. Phil Baker; Fourth ward, Carl Yontz; Fifth ward, W. H. Butler, Jr.; Sixth ward, Charles Spees.

## FIRE PREVENTION DAY.

A good many states are appointing October 9 as Fire Prevention Day. So many special "days" and "weeks" are being appointed now, that most people lose track of them. But Fire Prevention Day should not be so disregarded. It is an attempt to hold down and remove one of the great curses of civilization.

Fires are part of the cost of living. Most people have the notion that once they have insured property, they need not worry to take care to prevent fire. This spirit leads to the relaxation of precautions, and makes fires common.

Fireman's muster has been a regular event in a great many places, frequently a very popular holiday and festival. It has been devoted to showing the skill of the firemen in laying hose, running with fire apparatus, throwing streams, etc. These have been useful exhibitions, and have led to a lot of competition that has toned up fire departments and led to greater efficiency.

But firemen ought not to work merely for putting out fires, but for preventing them from getting started. They should visit schools on such occasions, and talk to the children about the danger of fire and how to guard against it. A visit from the fireman once a year would impress itself on children's minds for a life time.

The firemen and insurance men also should keep in close touch with business men and conduct a campaign of education leading them to remove fire hazards. There are plenty of these here in Newark as well as everywhere else. The removal of rubbish, proper electric wiring, cleaning out of smoke pipes and chimneys, these and other means should be dwelt upon on Fire Prevention Day. By public education on this subject, the fire loss could be reduced 75 per cent.

The hunters who blaze away at everything should reflect that every farmer's calf that they kill will prove to be a creature of very distinguished pedigree who has always taken all the blue ribbons at the fairs.

The high school and college boys are students of geography, at least to the extent that they can draw maps locating the homes of all the pretty girls within walking distance.

Latest from Washington was that Gen. Pershing was seen peering out of his dug-out with a periscope, to see if any kissing women were lying out in No-Man's Land for him.

**MURINE** Rests, Refreshes, Soothes, Heals—Keep your Eyes Strong and Healthy. If they Tingle, Smart, Itch, or Burn, if Sore, Irritated, Inflamed or Granulated, use Murine often. Safe for Infants and Adults. At all Drugists. Write for Free Eye Book. Murine Eye Remedy Company, Chicago, U. S. A.

## THE GERMAN ATTITUDE.

In these days of turmoil Germany and her attitude has ceased to occupy the front pages of the newspapers. The world has other troubles to think of. For the moment Reichland is down and out. Yet these people are very deep, and they require most watching when they are quietest.

It is said that a large section of the German workmen has signified a desire to work 10 hours a day. Now if Germany works 10 hours, and the other countries work only eight, and limit their production at that, the more industrious nation is the one that is likely to go ahead. It is quite possible that in the long run a nation can do more work in eight hours than 10. But it must look out carefully that it adopts all possible efficiency methods to keep up production.

Mathias Erzberger, one of the most slippery and witty of the German politicians, recently said, "Germany will do her utmost to fulfill the conditions of the peace treaty, and by hard work will try to regain the confidence and good will of her former enemies."

If Erzberger and other leaders keep up that talk and try to act on that principle, they will find that the world is long suffering and disposed to forgive.

The hypocrisy of the Germans has been such that the world is very suspicious and is waiting to be shown. Germany will have every chance to make good. If they show themselves capable of acting like human beings, they will conciliate former enemies. But to be really trusted, they must show that they are capable of understanding plain facts that are obvious to everyone else. If after the revelations now coming out of the Austrian politicians, they can't see that Germany was responsible for starting the war, they are too glib to win real confidence.

## THE WORLD'S SERIES.

It is not surprising that world's series baseball draws such enormous crowds, and such prices are paid for seats, when you reflect what a spectacle it is. It is worth the money.

The display of human skill, the amazing speed and accuracy with which these fellows handle a ball, the marvelous alertness with which they gather in hot and irregular bouncing grounders, indicate a control of nerves and muscles that would be impossible for more than one man in a million.

Of course world's series ball develops some bonehead plays. Some fellows simply buckle mentally under the strain, and do things that you would not see in a lot of the high school games. But as a rule the players are a cool and self-restrained type, who have learned that you never play better by worrying. And you can't help admiring men that by persistent training and hard work have acquired such mastery of the thing they set out to do.

Before you can hire a farm hand out in the country nowadays, you have to guarantee him the condition of the hammock, and assure him free automobile transportation down to the movies after supper.

There is altogether too much pounding on the desk by the orators, and altogether too little pounding on the work benches with hammers, mallets and other implements of honest industry.

Ex-President Taft has gone back to his job as a professor at Yale, but he can't expect to be pointed out on the street as frequently as the captain of the football team.

Some one expressed the hope that noiseless motorcycles will be supplied before long, but so far as common observation goes around Newark, the motorcyclist wouldn't ride 'em.

It is fortunate that the husking parties don't all come on the same night, as the supply of red ears couldn't be taken around from farm to farm.

"They that sow the wind shall reap the whirlwind" remarked the untidy man as he mournfully watched the progress of house cleaning.

With things the way they are going, it looks as if the bill for rubber tires would be bigger here in Newark than that for shoe leather.

The fall bonfire is considered a very cheerful sight, particularly when the smoke is blowing over to your neighbor's house.

Anyway the inmates of the lunatic asylums consider the music of the jazz orchestra as very inspiring.

The girls are now getting ready for an influenza epidemic by putting on their extra low cut waists.

Cheer up, for it has always cost the country more for dancing shoes than for overalls.

The disparity between the wages of steel mill workers, skilled in their trade, and teachers and professors, likewise in kind in their profession, must at times cause a doubt to rise in the mind of the student seeking an education.—Buffalo Commercial.

Let the true American workman be a plagiarist. He is always stealing my thunder. Quibbler—"You're nothing. He came around the other day and swiped my umbrella."

## THE ADVOCATE'S TALKING POT

Wealth is not acquired, as many persons suppose, by fortunate speculations and splendid enterprises, but by the daily practice of industry, frugality, and economy. He who relies upon these means will rarely be found destitute, and he who relies upon any other means will generally become bankrupt.—Wayland.

**A Double Decker.**  
 "My sermon," the minister said, "will be on the 'The Best Road,' or 'The Straight, Narrow Way.' And I hope you'll discover, before I am done, The fact that two heads are far better than one."

**One Long Bath.**  
 Aunt Caline says:—Yesterday I went over to Aunt Thracite's, for she has went away an' I promised her I'd keep it occasional.

**Aunt Caline**  
 I do not like this Ignatz Nesh. He always acts so very fresh! But when his presence you inhale, Your nose will tell you he is stale. —Luke McLuke.

**Did You Know**  
 That cast steel is made from wrought iron mixed with powdered charcoal or similar substances, cast in ingots and rolled or hammered into the required shape? Puddled steel is made from cast iron by a modification of the puddling process. Billet steel is made from wrought iron by interlaying it with charcoal and keeping it at a high temperature for several days.

**BE GAME; DON'T WORRY!**

(New York Times)  
 Time was when moving day stood high up among our national jokes and the narrow straits of family life were celebrated in laughing rhyme. With rare exceptions, however, not to be had at any possible price, and moving vans, when obtainable, costing as much as two months' rent, the dismay of the family doomed to move is scarcely a laughing matter. Home life has not for years flourished exuberantly in this metropolis, but it has suffered no less so severe as this moving day of 1919 is dealing it.

When Barrie's Grizel was disappointed in finding that the kirk in Thrums did not compare very favorably with the cathedral of her cocky days in London, Sentimental Tommy took her by the hand and said, "Never mind; you still have me!" To the unsympathetic bystander the wee Scotch lad would have seemed a sorry substitute for Saint Paul's of the soaring dome; but Grizel understood, and was comforted. It isn't the splendor of the kirk that really matters, nor yet the comfort of the old familiar home.

Over in Brooklyn, where striking tenants have seen their household goods and goods literally dumped out upon the sidewalk, sympathetic neighbors hung placards on them: "Better Luck Is Coming," "Be Game, Don't Worry." Of all the ills which the disordered world has brought this one of homelessness is the hardest to bear; but the world is still itself, and, for those who suffer together, happiness, though not yet in sight, is certainly round the corner.

## THE PRESIDENT.

(Cleveland Plain Dealer)  
 The physical and mental strain undergone by President Wilson during the last eight months would have taxed the stamina of the most vigorous. It was not surprising that his physician canceled the last few engagements of the recent tour of the west and hurried the president back to Washington for rest. It is not surprising now that Dr. Grayson calls a specialist for consultation.

President Wilson's guidance was never more needed in national affairs than now, and any loss of energy or forced rest would be unfortunate from every point of view. The president is the one person in America with first hand familiarity with the negotiations forming the background of the peace treaty, the one individual who may speak with the voice of authority and whose testimony touching matters of international peace is accepted without question.

The president's illness was brought on through his own excessive labors in behalf of American honor in its relations with other nations and in the interests of permanent peace. It has been a labor of service, which cannot come to an end now. Many years of leadership should lie before him.

Without regard to politics or to differences of opinion, the issues that divide the national mind, Americans everywhere unite in the hope that Mr. Wilson may speedily regain his customary vigor and resume his leadership. There is, happily, nothing to indicate occasion for alarm.

## THE NEW COMET.

(Ohio State Journal)  
 The new comet discovered by Dr. Metcalf at South Hero, N. H., on Sept. 20, bids fair to amount to something. At present the comet is very near the sun and is traveling at a tremendous speed on a northerly course and within two weeks it will be very near the North Star. It will then be 44,000,000 miles from the earth, and will be four times brighter than it is now. So we are promised a brilliant spectacle in the northern skies in October, but comets are such wayward things that one need not place much confidence in the predictions concerning them. They always come and go, and at the point foretold, but their actual aspect is subject to so many circumstances beyond the pale of prophecy that one can hardly know what a comet is like till it comes. However, we'll all hope will be a brilliant spectacle out near the North Star in a couple of weeks.

## QUAKER QUIPS.

(Philadelphia Record)  
 No, Maude, dear, because music intoxicates some people isn't due to the fact that it is written in bars.

There is nothing new under the sun, and yet many a man persists in trying to turn over a new leaf.

Some of the people who buy their friends' insides upon having them taken out, order, others are satisfied with the ready-made kind.

Tommy—"Pop, the rabbit multiplies very rapidly, doesn't it?" Tommy's Pop—"Yes, my son, but it takes a snake to eat it."

"It is more blessed to give than to receive," quoted the Wise Guy. "Yes, many a woman forgives a fellow's past because of his parents," added the Simple Muzg.

**An Oversight.**  
 There are really very few original thoughts that we think that have not been thought beforehand by someone else, and we are afraid the young lady who recently contrived a nightgown out of sugar sacks does not read her Bible very carefully and so did not know that it was once a very common custom to make garments out of sackcloth.

**Loud Kicking.**  
 Attorney General Palmer says that public opinion is more efficacious than laws in bringing down prices. The idea is to kick, loud, publicly and often.—Cleveland Plain Dealer.

**Tooey!**  
 I do not like this Ignatz Nesh. He always acts so very fresh! But when his presence you inhale, Your nose will tell you he is stale. —Luke McLuke.

**Did You Know**  
 That cast steel is made from wrought iron mixed with powdered charcoal or similar substances, cast in ingots and rolled or hammered into the required shape? Puddled steel is made from cast iron by a modification of the puddling process. Billet steel is made from wrought iron by interlaying it with charcoal and keeping it at a high temperature for several days.

**Did You Know**

Puddled steel is made from cast iron by a modification of the puddling process. Billet steel is made from wrought iron by interlaying it with charcoal and keeping it at a high temperature for several days.

## Spirit of the Press

**Negro Housing at the Capital.**  
 Housing conditions for Negroes in Washington have long been a shame to the capital and for many years the House and Senate Committees on the district, which are in effect the legislative branch of Washington's local government, have struggled in vain with the problem. District Negroes, many of them, live in alley ghettos. The alleys have no sewers and the shanties have no sanitation and the health conditions of the dwellers reflect their housing conditions. It may be that if Congress should do something with these wretched and disgraceful alley cabins it would find that it done away also with one cause of crime, violence and immorality.—New York Sun.

## The Dangerous Hazing Foolishness.

There were some who fondly imagined that when the S. A. T. C. was disbanded and the college back to the old order of things, one flaw in the old order would be permanently abolished—that we would never again hear of the hazing foolishness. In the news columns the other day a dispatch from Utica, N. Y., told of the drowning of a freshman at Colgate University as the result of a hazing party conducted by sophomores. More than a dozen years ago the death of a West Point cadet through an overdose of tobacco sauce caused the abolition of all further savagery of that sort to that government institution. The colleges, and certainly the universities should have cleaned house at that time. They should unite in such a movement now.—Philadelphia Record.

## No Cause for Alarm.

It is fear rather than fact which inspires the oft-repeated warnings which the health against another outbreak of the influenza. Health officials everywhere are advising that precautions be taken, and the immediate result is that some alarmists are beginning to suspect that the dread disease is again working havoc among us. There is every reason why the unwary should be warned. At this time of climatic change mankind is more susceptible to the germs of the influenza and other dangerous maladies. But, while everybody should follow the warnings of the doctors to observe the rules of health and sanitation, to keep smiling and not to worry overmuch over possibilities of the future, there seems to be no occasion for alarm as yet. The theory that wartime conditions had much to do with the spread of the influenza last year has not been quite exploded.—Buffalo Commercial.

## Pointed Observations

The Pennsylvania coal miners are idle so much it isn't hard to tell which they'd choose—working or loafing—it given their pick.—Boston Transcript.

A literary critic of President Wilson says that "he has no poetry in him." Hum—he has more truth than poetry in him maybe.—Cleveland Plain Dealer.

The New York Herald says Judge Taft is off somewhere fishing. We not only wish to know his whereabouts for business reasons, but we particularly desire to know where he got his bait.—Houston Post.

It appears in the news from Amerson that Mr. Hohenzollern has had to go househunting. Now his real punishment begins.—Wheeling Intelligencer.

Anyway, one does not equal two when the two are Admiral Grayson and Mrs. Wilson.—New York Evening Post.

The length of the steel strike may depend upon whether or not the \$30 a day workmen have put in their winter coat.—Baltimore American.

A good many people are beginning to understand why it was that President Wilson wanted a Democratic Congress.—Illinois State Register.

Victor Berger has come out against the League and the President. Another valuable ally for the League.—Chicago News and Courier.

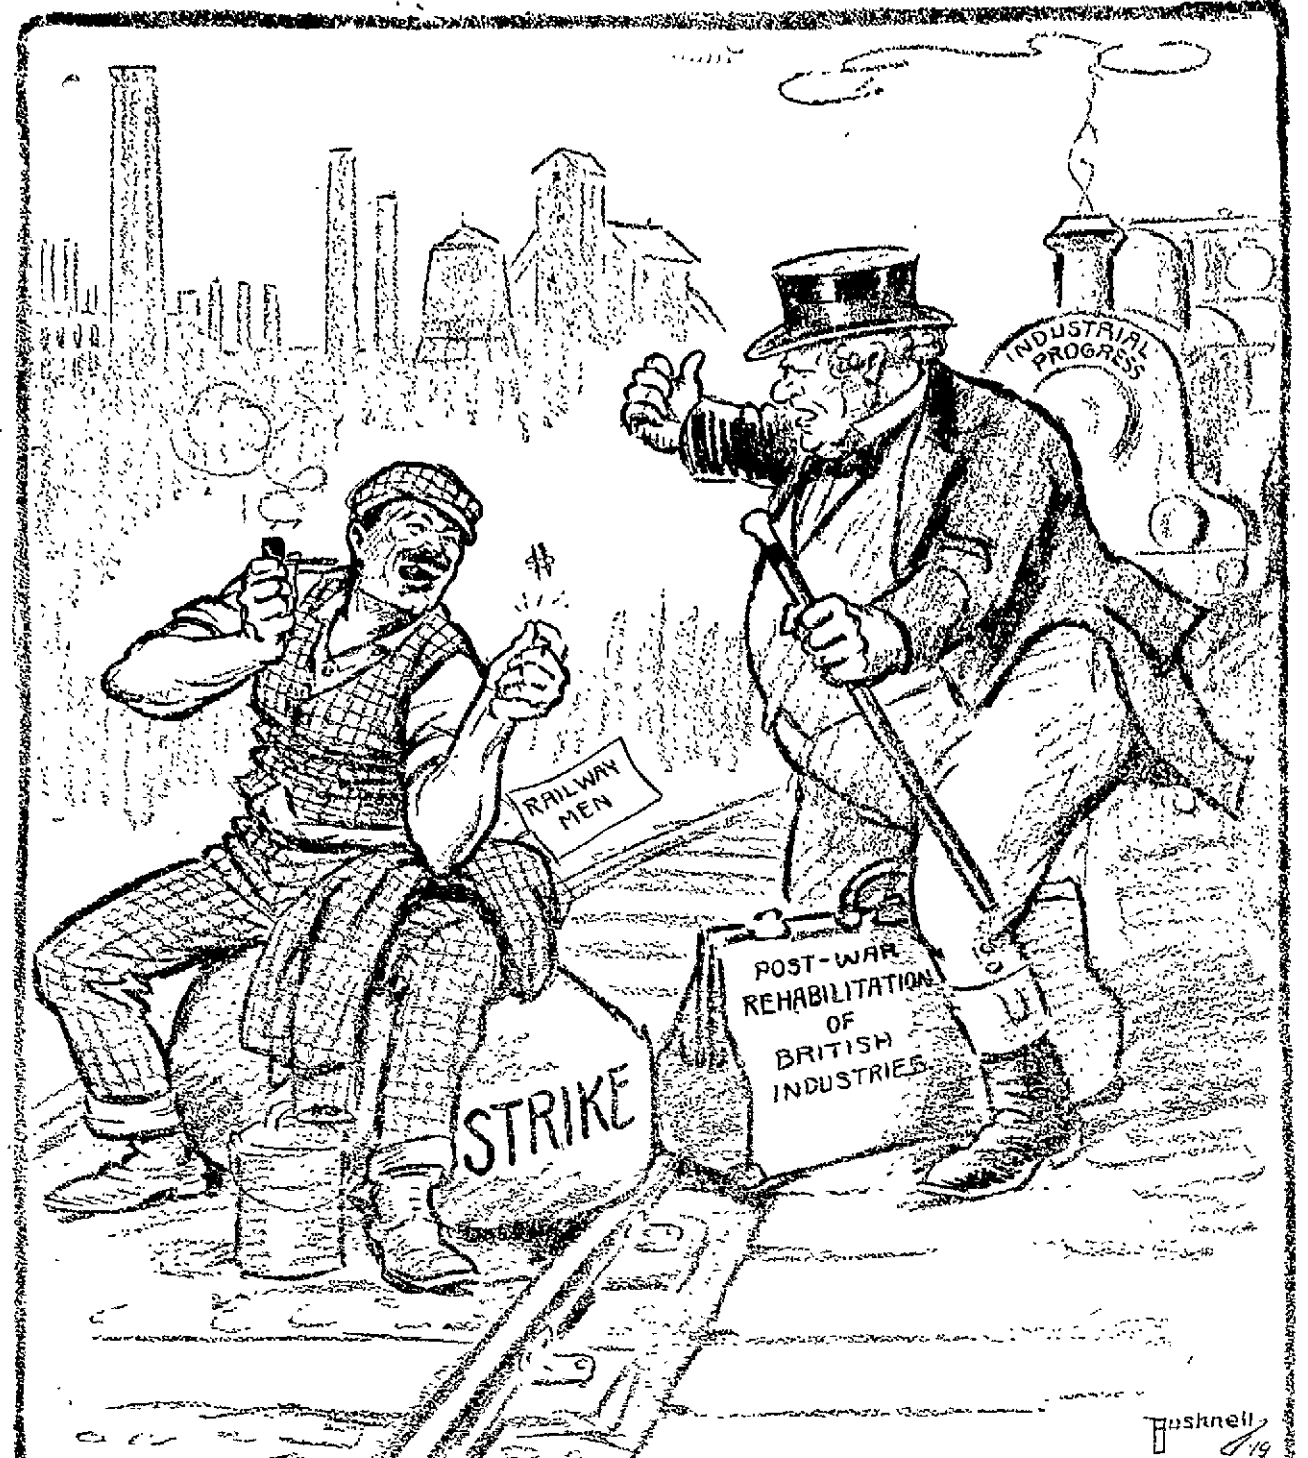

In one respect, at least, the President's tour was a success. He succeeded in starting a backfire from California on Senator Johnson.—Springfield Republican.

Rulgaria will have to give back everything she stole and pay \$450,000,000 in gold. It pays to guess right when the fate of the world is at stake.—Houston Post.

"Oh, you Hiram!" shouted a California audience when President Wilson suggested that "if you have a friend who is a fool, encourage him to hire a hall."—Atlanta Constitution.

There is actually a much greater class between men and women than there is between Republicans and Democrats, and spoils is the cause of both rows.—Ed Howe's Monthly.

## THE STRIKE-IT'S GERM HAS SPREAD TO ENGLAND

## Gets Quick Relief from Sore Throat

During the coming raw days of fall and winter you are particularly apt to develop sore throat, lumbago and stiffness of the muscles. Children also are more apt to contract colds and kindred ailments at school. Be prepared. A bottle of Houstonia in your home is your safeguard.  
 Mrs. C. E. Rieder, 935 East Long St., Columbus, Ohio, says: "I am troubled with a weak throat and every cold I contract settles there. I find Houstonia Liniment the best remedy I have ever used. One application always relieves my sore throat."  
 It's easy to use Houstonia—no pain, smarting or blistering. It sterilizes open cuts, burns, scalds or bruises and soothes while it heals. Ask your druggist for Houstonia—each (The Original Jones' Liniment), \$1.00. Half size 50c, trial size 25c. Dr. J. C. Jones Co., So. Charleston, Ohio.—Adv.

\$39.95**

### SPECIAL MODELS FOR LARGE WOMEN

Fashioned from Oxford Suiting, Poplin, Twill and Wool Poplin, in models that are both becoming and stylish.

**T. L. DAVIES**  
LEADER IN QUALITY AND LOW PRICES.

## RAISE \$600 FOR BUCYRUS HOME

King's Daughters Circle at Granville Gratified at Response to Appeal For Girls' Home.

(Special to the Advocate.)

Granville, Oct. 7.—The drive for the state home for Dependent Girls at Bucyrus, which the Cup of Cold Water circle of the King's Daughters at Granville conducted last week, was very successful. The amount in cash paid thus far is \$600. In a statement issued today, the circle says that the appeal for Granville and vicinity for the cordial manner in which the solicitors were received, and for the donations. The circle is much pleased with the results of the drive, and is proud of Granville for the support given.

The Travelers' club met in the Community rooms Monday afternoon. The first paper presented was on "Constitution," given by Mrs. Conklin. After a short intermission, Mrs. Elges gave a paper on "The Navy." At the conclusion of her talk a beautiful tableau was given by three members of the club. Miss Larimore, representing Columbia, Mrs. Clemmons, an American sailor, and Miss Howe was color bearer. Mrs. Darrow, at the piano, played "America" and then the "Star Spangled Banner," at which time the audience enthusiastically joined the accompaniment in song. The public health nurse, Miss Wilkinson, then gave an excellent talk, telling of her work in general, what she has done in Granville, and what she hopes to do in the future.

Mrs. Helen Rose is critically ill at her home on South Pearl street.

The regular meeting of the War Mothers was held in the Community rooms, Monday evening with Major Clarke as honor guest. Major Clarke, who has served 18 months overseas, told of his work. Lieutenant Chamberlin was present also and made a few remarks as did Rev. Mr. Scott. At the end of the program refreshments were served. At the house of Mrs. Elges, a telegram of greetings to the national convention of War Mothers which is meeting in Baltimore, Md., this week.

Rev. C. J. Rose is quite ill at his home in Plum street.

Robert S. Neil, former owner of Neil park, died Monday at his home in Columbus. For many years Mr. and Mrs. Neil spent their winters at their residence in Granville.

## SOCIAL AFFAIRS

The Isabel Miller W. C. T. U. will meet Wednesday afternoon at 2:30 o'clock with Mrs. O'Connor at her home in Curtis avenue. Delegate to the state convention will be elected at this meeting.

### Taylor-Hudgell.

Announcement of the marriage of Miss Helen Hudgell to Mr. Millard Taylor will be a surprise to the many friends of the couple in Marietta and Newark.

The wedding ceremony took place in Marietta yesterday afternoon at 2:30 o'clock. Rev. John Grass officiating. Shortly after the ceremony the couple slipped out of town and arrived in Newark on the 8 o'clock train only to be met by a group of friends who became aware of the wedding.

Mrs. Taylor is a graduate of the Marietta high school of the class of 1916 and is a member of the Alpha Nu Sigma sorority of Marietta college.

Mr. Taylor is a graduate of the same school class, spent one year in Marietta college, and belongs to the Alpha Dugamma fraternity. Mr. Taylor is employed by the Ohio Cities Gas company having joined that company following his return from France where he served in the corps.

Mr. and Mrs. Taylor will locate permanently in Newark and are staying temporarily at the Warden Hotel.

### Crawford-Herenden.

The marriage of Miss Goldie Herenden, daughter of the late V. K. Herenden of Hanover and Mrs. Ray Crawford of Hanover, was solemnized at the home of the clergyman, Rev. J. W. Boyer in Reynoldsburg, on Saturday at 10 o'clock.

The attendants were Mr. and Mrs. J. T. Stitt of Black Run. The bride's father met his death a short time ago when he was struck by a train at a crossing near his home.

Mr. Crawford has been one of the most ardent workers in the war savings stamp campaign, being employed as a mail carrier. They will be at home on the Herenden farm near Hanover.

On Sunday about twenty eight friends of Abraham Ryan gathered at the home of Mr. and Mrs. C. C. Welsh to help him celebrate his 89th birthday.

Piano selections were rendered by Miss Sonoma Deck and Mr. Amos Claggett and Mr. Ryan gave several selections with Miss Sonoma Deck. Claggett at the piano. At noon dinner was served. All departed wishing Mr. Ryan many happy returns of the day. Those present were: Mr. and Mrs. Frank Ryan, Mr. and Mrs. Amos Claggett, Mr. and Mrs. Fred Ryan, Mrs. Claude McGill, Mrs. Sarah Ryan, Mrs. Rebecca Daugherty, Mrs. Austin Deck, Miss Stone, Miss Blanche Ryan, Florence Ryan, Sonoma Deck, Sadie Neighbour, Mr. Thomas Welsh, Mr. Jonathan Neighbour, Mr. Dick Ryan, Mistress Lu Fern Welsh, Marjorie Davis, Master Edwain Ryan, Miss Eva Claggett, the guest of honor Mr. Ryan and the host and hostess Mr. and Mrs. C. C. Welsh and Margaret Welsh.

The marriage of Miss Matilda Row and Mr. John C. Ironmonger was solemnized at the parsonage of the First M. E. church in Newark yesterday afternoon at 2 o'clock. Dr. L. C. Sparks officiating. The bride lives in Homer while Mr. Ironmonger is from Norwalk where they will reside.

The Twentieth Century club will meet at the home of Mrs. Burbon Miller of West Church street on Thursday afternoon at 2 o'clock.

Miss Louise West, whose wedding will be solemnized this month, was the honor guest when the young women of the Wehrle offices entertained at dinner at the First Presbyterian church Saturday evening.

The Alpha Sewing circle will meet at the home of Mrs. Gilbert Fulton, corner of Hoover and Tenth street, Wednesday afternoon.

A surprise was given Sunday evening for Mr. and Mrs. E. L. Frye of Kreis street, in honor of their nineteenth wedding anniversary. Those present were: Mr. and Mrs. E. L. Frye, Mrs. Martha Johnston, Mr. E. S.

Johnston and daughters Helen and Flora, Mr. and Mrs. Luther Jackson and children Doris, Edna, Phoebe, Mr. and Mrs. S. H. Braden and children Florence, Robert, Juanita and Nellie, Mr. and Mrs. J. W. Braden and daughter Louise, Mr. K. Barcroft, Mrs. Mabel Larkin, Mr. and Mrs. A. L. Ryan and children Constance and John, Mrs. D. B. Stevens and son Charles. The out of town guest was Miss Myrtle Jackson of Keyser, W. Va.

Miss Nellie Finner is entertaining at her home in St. Clair street on Wednesday evening with a miscellaneous shower for the pleasure of Miss Clara Copeland, whose wedding takes place this month.

The Eddie Mitchell jazz orchestra of Columbus has arranged for a dance to be given at the Knights Pythias Temple on Wednesday evening, October 22. The orchestra is well known over the state.

## THE COURTS

### Marriage Licenses.

Lon Jones, restaurant proprietor of Marion, Ind., and Miss Ella Mae Friel of this city. Rev. Calvin G. Hazlett named to officiate.

John C. Ironmonger, a farmer, of Norwalk, Huron, county, O., and Miss Matilda A. Row, of Burlington township.

### Decree Granted.

A decree of divorce was granted by the court in the case of Harry Johns vs. Ruth Johns, and the defendant was restored to her former name of Ruth Bost Lanier. The plaintiff was ordered to pay the costs of the case.

### Case Is Dismissed.

In the case of the Newark Natural Gas & Fuel Company vs. The City of Newark, a journal entry has been made dismissing the case without record at the costs of the plaintiff.

### Charges Husband With Abuse.

A petition has been filed in common pleas court by Della Tucker against Albert B. Tucker, which alleges that they were married Aug. 19, 1915, and that the defendant has been guilty of extreme cruelty in that he has been cross and abusive and constantly finds fault with the plaintiff until it has become unbearable to live with the defendant. She also alleges gross neglect and failure to provide and asks for a divorce and restoration to her former name, of Della M. Walters.

### Milady's Boudoir

A Good Laugh Worth More Than a Tonic.

A good laugh is worth more than a tonic, as you can cultivate the spirit of laughter until it goes forth without restraint. Let it gurgel up from the very depths of your being and burst forth in merry peals. Laugh until the tears gather in your eyes and then look at yourself in the mirror. A glow of roses has gathered in your cheeks, your eyes sparkle with the spirit of youth and your mouth curls in an abandonment of delight. Laugh and rejoice and your beauty will take care of itself.

How often we hear a woman groan about being slaves to housework. Each day they take up their brooms and dusters with this depressing point of view, and each night retire more convinced than ever that housework is the greatest drudgery in the world.

Start the day right. You cannot be happy in a slovenly wrapper with your hair uncombed and at all angles. Don a chic little house dress of flingham, and brush your hair and do it up becomingly as you would to attend a matinee.

Then, with your broom and duster and a light heart, begin your housework with a song. Glance at yourself in the mirror and note the color that has beautified your cheeks from the exercise you are going through. Note the brilliancy of your eyes, fired with ambition and with happiness. Don't be a sullen slave who drags herself around the house with a long face and a bad temper.

The woman with a keen sense of humor is only a pleasure to her friends but is an endless source of happiness to herself. Study the children and hear their joyous shouts over a bit of nonsense or some simple pleasure. Children have more humor in their hearts than we grown ups, but as they develop into maturity their humor is apt to be stifled by reproving parents and worries.

### Every Day Etiquette

"Please tell me if the engagement ring is worn during the wedding ceremony and if the wedding ring is placed on the finger over the engagement ring?" asked Amy.

"It is customary to remove the engagement ring for the ceremony, leaving the finger clear for the wedding circle. Afterward the engagement ring may be put on over it," said her married friend.

### Vacation Aid.

"They are building more bug hotels at the seashore."

"Don't blame 'em," said the man who is just back from his vacation. "In my own opinion the only way to have a good time at the seashore without trying over the expense, is to own a hotel."—Washington Star.

Japan has established a school at Kyoto for free instruction in the silk industry.

## QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards' produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep right. Try them. 10c and 25c.

# Overdoing

## How American Women Break Down

Owing to the modern manner of living and the nervous haste of every woman to accomplish just so much each day, they overdo, and as a consequence develop ailments peculiar to their sex, as is indicated by backache, headache, nervousness, the blues, displacements and weakness.

Women who find themselves in this condition should slow down, and depend upon that good old fashioned root and herb remedy, Lydia E. Pinkham's Vegetable Compound, to restore them to health and strength, for there is no other remedy known that so quickly restores a healthy, normal condition.

## Here is the Story of a Most Remarkable Recovery

Minneapolis, Minn.—"I was run down and nervous, could not rest at night, and was more tired in the morning than when I went to bed. I have two children, the youngest three months old, and it was drudgery to care for them as I felt so irritable and generally worn out. From lack of rest and appetite my baby did not get enough nourishment from me, so I started to give him two bottle feedings a day. After taking three bottles of Lydia E. Pinkham's Vegetable Compound I felt like a new woman, full of life and energy. It is a pleasure to care for my children and I am very happy with them and feel fine. I nurse my baby exclusively again, and can't say too much for your medicine."

Mrs. A. L. MILLER,  
2633 East 24th St.

## PERSONAL

Ed Strear and Frank Schlosser left Sunday night for Chicago, Salt Lake City and Omaha on a pleasure trip.

The condition of Miss Agnes Sebring is much improved. She was operated upon last Wednesday.

Robert Roe, son of Mr. and Mrs. Charles Roe, 24 Franklin street, has recovered from a serious illness.

Miss Frances Orwig of Newark, is the guest of Miss Katherine Stevenson of Forest avenue, Zanesville.

Mrs. Gilbert Stites, who had been called to Newark by the serious illness of her daughter Mrs. O. T. Warner, has returned to her home in Zanesville.

Francis McWilliams, formerly of Newark, now living in Columbus, was a visitor here yesterday.

Miss Edith Booth of Fallsburg has accepted a position in the Mazy store.

Miss Emma Gaeth, who has been the guest of Mrs. R. P. Gruber, has returned to her home in Toledo.

Gruber and her daughter Blanche accompanied her to Columbus.

Mrs. Margaret McKenney has returned to her home in West Locust street after a five weeks' stay in Munce, Indiana, the guest of her brother, Dan Rogers.

Mrs. Harry Kear of Oakland, Calif., is the guest of Mrs. Richard Kear of the Granville road.

Major J. J. Keener of the Western Reserve is gone to Cleveland.

Beryl Shaw of Mansfield spent Saturday and Sunday in Newark.

Misses Grace Pine and Florence Harter of the Meyer & Lindorf store spent Saturday and Sunday the guests of Mr.

and Mrs. Frank Cooper of the Granville road.

Mrs. George Kenedig of Columbus, was the guest of Mrs. C. Etnier of Hudson avenue, Monday.

Mr. and Mrs. C. Ashcraft of Pittsburgh is the guest of Mrs. A. L. King of Hudson avenue.

Mr. and Mrs. Card of Columbus spent Sunday with Mrs. C. Etnier.

### Our Boys and Girls

The importance of dainty, fastidious care of the person cannot be inculcated too early in the youthful mind. Cleanliness, and more than mere cleanliness, exquisite self grooming should become such a habit in youth that the necessity for it will be one of the first requirements through life. This habit of cleanliness should be taught before habits of carelessness have had time to assert themselves, particularly in boys.

There is an inborn daintiness about little girls that makes them take to good grooming naturally. The small boy, on the other hand, avoids good grooming as a plague. Water, except for drinking and swimming purposes, is the bane of his life. A wash cloth he abhors, soap is a nuisance, and a tooth brush is an instrument devised for the unnecessary waste of time.

There is no use trying to teach the little boy to be fastidious about his person, but every boy may be taught the importance of cleanliness, of a fresh clear skin, well brushed hair and teeth and a crisp sense of what constitutes a clean collar. These habits, established in childhood, are even more important for the boy than the girl, whose natural instincts will teach her to make herself as dainty as possible.

## Resinol does wonders for sick skins

That itching, burning skin-trouble which keeps you scratching and digging, is a source of embarrassment, as well as of torment to you. Why don't you get rid of it by using Resinol Ointment? Physicians prescribe it constantly. In most cases, it stops itching instantly and heals eruptions promptly. It is very easy and economical to use.

Sold by all druggists. Resinol Ointment should usually be used by Resinol Soap.

## NEWARK WOMAN HAS ENCOUNTER WITH THIEF

Just a few minutes before John J. Archer, Jr., Columbus insurance man was shot after he had surprised a thief in the act of stealing his machine near High and Broad street at 9:30 o'clock last night, the same man attempted to steal the automobile of Patrolman Charles De Witt of this city.

Mr. and Mrs. De Witt had been in Columbus and Mrs. De Witt went to the car, parked a short distance east of the Archer car and found a man in the front seat attempting to fit a key into the lock. When she asked him the fellow got out stating that he had made a mistake thinking it was his car. He then went to the Archer car and was caught there. When being led to High street by Archer the fellow pulled a gun, or else a confederate did, and the shooting followed.

The tragedy drew a big crowd and the victim was rushed to Grant Hospital. It is said that he will recover, the bullet having pierced through his right elbow and entered his chest.

**TESTIMONY IN COLUMBUS.**

Police Chief Jas. Sheridan returned last evening from Columbus where he testified in the case of the state against Walter O'Connell, a young sailor, charged with being implicated in the theft of a car from Columbus and which was later recovered by Chief Sheridan at Alexandria, who also arrested three men near there charged with having stolen the machine. Two confessed and O'Connell pleaded not guilty stating that he did not join the others. Two soldiers, until after they had taken the car.

## THE MARKETS

**Cleveland Produce.**  
Cleveland, Oct. 7.—Eggs: Fresh gathered northern extras, 62c; extra firsts, 60c; northern firsts, new cases 58c; old cases 55c; southern and western firsts, new cases 55c.

Poultry: Live fowls 72c; heavy grades 30c; 32c; springers 27c; heavy grades 30c; 32c; ducks 28c.

Sweet potatoes: Virginia, east shore, branded \$4 per barrel; New Jersey \$1.55 per bushel hamper.

**Cincinnati Livestock.**  
Cincinnati, Oct. 7.—Receipts 6,000; market 75c lower; selected heavy shippers \$16; good to choice packers and butchers \$16; medium \$15.50.

Cattle: Receipts 800; market steady; shippers \$10.50; 11.00; butchers steers \$11.50; 12.00; good choice \$12.50; 11.00; common to fair \$9.00; calves steady; extra \$21.50; 22c; fair to good \$14.25; 15.00; common and large \$7.00; 12.00; sheep: Receipts 500; market steady; good to choice \$2.50; 2.55; fair to good \$2.00; 2.05; common \$1.40; 1.45; fair to good \$1.20; 1.25; common to fair \$7.00; 12.00.

**Wall Street.**  
New York, Oct. 7.—(Wall Street)—High priced specialties were again the prominent issues at the strong opening of today's stock market. Advances of 2 to almost 10 points being made in the first half hour by oil, motors, equipments and steels. Mexican Petroleum and Texas company, General Motors, Baldwin Locomotive, Worthington Pump and Crucible and Bethlehem Steels were the outstanding features. Shipments also scored moderate gains with electrical, metal and tobacco shares. Food issues developed further strength under the lead of American Sugar and Cane Sugar. American Woolen supplemented yesterday's gain.

On the further rise of the extremely active foreign fund records were made by Texas company, Mexican Petroleum, General Motors, Kelly-Springfield Tire, Inducto-Johnson and Worthington Pump, advances in these shares ranging from 2 to 9 points. Other noteworthy movements included Baldwin Locomotive, Atlantic Gulf, United Fruit, General Electric, Harvester and National Lead at gains of 2 to 4 points. Activity in rails was confined to minor issues and United States Steel was under continued pressure. Realizing for profits caused reactions of 1 to 2 points at noon. Call money opened at 5 percent.

**Pittsburgh Livestock.**  
Pittsburgh, Oct. 7.—Receipts 4,000; market higher; heavies \$16.50; 17.00; light yarkers \$17.00; 17.50; light yarkers \$16.00; 16.50; pigs \$15.00; 15.50. Sheep and lambs: Receipts 600; market steady; top sheep \$10.25; top lambs \$15.50.

Calves: Receipts 100; market steady; top \$22.50.

**Chicago Grain Review.**  
Chicago, Oct. 7.—Fine weather and a sharp break in hog prices tended today to weaken the corn market. Opening prices which ranged from the same as yesterday's finish to half cent lower with December \$1.23 1/2 to 1.23 3/4, and May, \$1.21 3/4 to 1.22, were followed by a moderate general setback and then something of a rally.

Oats were relatively firm owing to

a substantial falling off in the visible supply total. After opening at 1.14 to 1.15 decline to 1.14 advance, including December 10.55; 10.50 3/4, the market underwent a slight sag and then rose to above yesterday's finish.

Provisions dropped with hogs and corn. Lard, though, showed less weakness than pork or ribs.

**Chicago Produce.**  
Chicago, Oct. 7.—Butter: unchanged. Eggs: unsettled; receipts 9,84 cases. Firsts, \$4.50; 56c; ordinary firsts, 46 1/2c; 47 1/2c; at mark, cases included, 47 5/8c; storage packed firsts, 57 1/2c; 58c.

Poultry: alive unchanged.

**Chicago Live Stock.**  
Chicago, Oct. 7.—Hogs: receipts 30,000; mostly 300-700 lbs; heavy \$14.75; 15.00; medium \$13.25; 13.50; light \$13.50; 14.00; heavy packing sows smooth \$14.00; 14.50; packing sows rough \$13.50; 14.00; pigs \$14.75; 15.00.

Cattle: receipts 14,000; steady; beef steers medium and heavy weight choice and prime \$16.75; 17.00; medium and good \$11.25; 11.50; common \$8.75; 9.00; 11.25; light good and choice \$15.00; 15.25; common and medium \$2.50; 2.55; 15.00; cows and heifers \$6.50; 14.75; cows \$6.50; 13.50; light lights \$15.00; 16.00; heavy packing sows smooth \$14.00; 14.50; packing sows rough \$13.50; 14.00; pigs \$14.75; 15.00.

Sheep: receipts 1,000; steady; lambs \$13.50; 14.00; culls and common \$9.00; 9.25; ewes medium good and choice \$6.75; 8.00; culls and common \$3.00; 3.25; breeding \$7.00; 13.25.

**Toledo Grain Closing.**  
Toledo, Oct. 7.—Corn cash 1.51. Oats cash 75c; new 73 1/2c. Barley cash 1.40. Rye number 2 cash 1.43. Clover seed prime cash and October \$3.00; Dec. 30.25; January 30.75; Feb. 31.00; March 30.70. Alaska prime cash and October \$27.30; Dec. 27.40; Mar. 28.00. Timothy prime cash 1917-18, 5.40, 1919 5.60; Oct. 5.60; Dec. 5.70; Mar. 5.75; Apr. 5.72 1/2c.

## FEDERAL TROOPS

(Continued From Page 2)

so far has been without disorder. Strike headquarters issued a statement repudiating the meetings.

A crowd of over 1,000 pickets, who gathered at the Youngstown Sheet and Tube plant in East Youngstown last night when it was reported that the men were picketing the plant, were dispersed by a committee of citizens, hastily summoned. Sharp picketing prevailed at the plant again this morning, but without disorder, though a picket was arrested, charged with holding a man who wanted to enter the plant and two workmen were arrested for carrying concealed weapons.

## NO CHANGE NOTED IN DISTRICT NEAR CHICAGO

Chicago, Oct. 7.—The general industrial situation at most of the great steel mills in the Chicago district regarding reports on increased operation or diminished output, showed no notable change in the past 24 hours. Dawn of the 16th day of the nation-wide strike in the industry, however, found two steel centers—Indian Harbor and East Chicago, Ind.—under martial law and patrolled by state militiamen, and a third city, Gary, site of one of the United States Steel Corporation's greatest plants, under military control of federal troops.

From none of the other places in the district harboring steel mills come reports of greatly altered conditions. At a few mills it was reported that workers are gradually returning to work, while union leaders maintained their claims that the men were remaining away from work.

At Waukegan, Ill., a grand jury investigation of charges of intimidation at the plant of the American Steel and Wire company was begun.

## SOME PLANTS REOPEN IN PITTSBURGH DIST.

Pittsburgh, Oct. 7.—A number of steel plants in the Pittsburgh district which were forced to shut down two weeks ago when the strike of steel workers was initiated, are operating today, according to reports from company sources. Some of the mills are operating full time, the companies say, while others which had been "down" started working in part. The companies claim that their efforts to reopen the plants yesterday met with success and that many men returned to work.

Union leaders termed the efforts of the employers to start operations a "failure" and they declared that the mills reported to have resumed work Monday have very few men on the job. Latest figures from union headquarters October 6, indicate that 267,500 steel workers are on strike in the United States. This is an increase of 88,500, compared with the figures issued shortly after the strike started.

Six room house with bath, electric lights and gas. Full cement basement. Price \$5,000. Auto phone 6323. 10-7-11

Small farm, close in. Address Box 6024 care Advocate. 10-7-11

Double house, Wehrle avenue, rents \$20 month. Good tenants. Call Auto 1599. 10-6-11

Modern 6 room and bath, hard wood, electric lights, 60 feet front. Inquire 229 North 10th. 10-4-11

Farm of 140 acres. See Griffith D. Jones, Hebron R. D. 2. 10-4-11

Eight room house at 213 Hoover St., bath, large lot, street assessment paid. \$2,600.00. J. F. Moore & Son, Trust Bldg. 10-2-11

Vault, Baughman, 256 Lawrence street, call at Advocate office for two Auditorium or Alhambra theatre tickets. 10-7-11

Six room house, large lot in first class repair, north side \$1500. P. E. Burge, phone 7292. 10-2-11

Eighty-five acres, four miles out on Hebron road and electric car line, will sell in various size parcels. P. E. Burge, phone 7292. 10-2-11

Six room house west side in good repair. Will consider vacant lots, well located as part pay. P. E. Burge, phone 7292. 9-22-11

Good eight room house and five adjoining lots, on west side \$3000. P. E. Burge, Phone 7292. 9-22-11

West side, six rooms house, bath, new furnace, electric light, garage, cemented cellar, in pink of condition inside and out. Possession at once. P. E. Burge, Phone 7292. 9-13-11

Seven room modern house, Woods Ave., near school, in first class condition, furnace, bath, garage, plenty fruit and shade, must be seen to be appreciated. P. E. Burge, Phone 7292. 9-8-11

At Waukegan, Ill., a grand jury investigation of charges of intimidation at the plant of the American Steel and Wire company was begun.

From none of the other places in the district harboring steel mills come reports of greatly altered conditions. At a few mills it was reported that workers are gradually returning to work, while union leaders maintained their claims that the men were remaining away from work.

Two or three furnished rooms near square. Call automatic 7241. 10-7-11

Furnished rooms for one or 2 gentlemen, bath and phone. 28 Pearl St. Phone 3378. 10-6-11

# Will Car Shortage and Labor Trouble Produce Soft Coal Famine Next Winter?

Witnesses Before Senate Investigating Committee Assert That Prompt and Effective Co-Operation From the U. S. Railroad Administration Is Essential if Coal Problem Is to Be Solved.

ATTITUDE OF RADICALS IN LABOR RANKS ALSO IS DISCUSSED

Public Will Face Cold Winter if Miners Decide on Nation-Wide Strike and Shut Down Mines in the Bituminous Districts.

PROMPT and effective co-operation from the United States Railroad Administration, and the prevention of a nation-wide strike in the bituminous coal fields, are all that stand between the American people and a bituminous coal famine next winter, according to testimony presented by officers of the National Coal Association to the United States Senate sub-committee which is conducting an inquiry into the coal situation.

Declaring that the American people were entitled to all the facts in the case Mr. Harry N. Taylor, of Kansas City, President of the National Coal Association, told Senator Frelinghuysen, Chairman of the Committee, that there are three distinct factors controlling the successful operation of coal mines and the successful serving of the public interests.

"These factors," said Mr. Taylor, "are the consumer, the producer and the transporter. If any one of those three fail the other two are helpless. If the consumer wants the coal and the producer can produce it and there are no cars to move it, the other two are helpless. If there are plenty of cars and plenty of coal and the consumer will not place his orders, the transporter and the producer are helpless—and so on. Any one of them failing in his share of the work renders the other two helpless."

"In the early summer months of this year the one that failed was the consumer. I attribute that largely to the fact that for two years the government and the coal operators, in their effort to assist the government, had intensified their demand upon the public to store coal. The press was full of the necessity for winning the war, and amplified the importance of the movement of coal during the entire twelve months of the year, if we were allowed to produce enough coal to win the war. They laid stress on that. In pre-war times, when there was no particular incentive, it was often the practice of the consumer to wait until he really needed coal, and if the railroads had plenty of labor at their mines everything was all right. There would be a rush at the last minute and there would be a rush to buy coal in the fall that would keep the operators and the transporter working at top speed."

"So, through the Fuel Administration, that condition of affairs was made known to the public and the production during the war time was made almost continuous. The ultimate consumer either stored his coal in the factory yard or in basements of the home users and the railroads stored a large amount of coal, so that the production of these years was practically only limited by the transportation and the ability to get it through the congested centers. After two years of practically bounding the people to buy coal, when the armistice was signed there was a relaxation on the part of the consuming public which was reflected in their lack of buying and the Geological Survey figures distinctly showed that the production was falling off. By the first of June there had been a less production in this country, as compared with the year previous, of about seventy million tons and it became evident to the coal industry that unless something was done to make up in part that large shortage of production it would so congest the business in a few months that it would be impossible for the railroads to move the coal, especially as they would probably be called upon to do so about the same time that they would be asked to move the largest food crops ever produced in this country."

Situation Can Be Saved.

Questioned by Senator Frelinghuysen as to what would have to be done to prevent a bituminous coal famine this winter Mr. Taylor said that the consumers would have to

produce at the rate of a little over eleven million tons a week during the remainder of the year.

"If we get busy right away can we save the situation in time?" demanded Senator Frelinghuysen.

"Absolutely we can," said Mr. Taylor. This confidence on his part was shared in by all the witnesses who appeared before the Senate sub-committee during the first day of the coal hearing. But all agreed with him that it would take the most intelligent kind of co-operation on the part of the Railroad Administration and an immediate reduction of the car shortage that is holding up production at the mines to save that part of the public which has delayed in buying its coal from suffering from the cold this winter. All agreed, too, that if the radical element which is attempting to stir up trouble among the organized bituminous coal miners of the country succeeds in calling a general strike this fall or winter the result would be calamitous.

Miners to Meet.

The bituminous miners have called a convention in September at Cleveland and according to Mr. Taylor they plan to formulate demands there similar to the demands made by the English miners on the English coal operators. According to the proposed demands the present contract for an eight hour day should be cut down to a six hour day and instead of working six days a week, they intend only to work five days a week. A substantial increase in the present wage will also be included in the demands.

In compliance with a request from the Committee concerning the present wages paid to the coal miners of this country, Mr. Taylor said that the day wage scale paid to the man who drives a mule is practically uniform all over the country and that the men who work by the day, who are known around the coal mines as "day men," get a fixed rate per day of eight hours.

"The miner, however," said Mr. Taylor, "gets a fixed number of cents per ton for producing the coal at his working place, and that naturally varies in accordance with his ability and according to the thickness of the seam. That is, in the thickest seams where he can get down more coal with less endeavor he gets paid a less number of cents per ton, and in the thinner seams the rate per ton is higher, because the endeavor to get the coal is greater. Those men are supposed to work eight hours a day, the same as the 'day men' work, but frequently it is almost impossible to keep a man working eight hours. In fact, I would say, that the miners do not work eight hours regularly because they regulate their own earnings on what they produce."

The Wage Scale.

"What do the miners make on an average?" asked Senator Myers of Montana.

"Well," said Mr. Taylor, "as the seams range up their wages range up. There are some miners that make as much as fifteen dollars a day and there are other miners that make as low as five dollars a day because they are the type that could not make any more money in a mine digging coal than they could picking slate off a car, and they get five dollars a day doing that."

In response to a question concerning the nationality of the men employed in the mines Mr. Taylor said:

"That varies in different sections of the country. We have almost all nationalities. There are a great many Italians, Austrians, Slovaks, Lithuanians, English and Scotch."

"Are any of them what you would call distinctly American without a hyphen?" asked Senator Frelinghuysen.

"Yes," answered Mr. Taylor, "and I want to say this—that some of the brainiest and most upright men I have ever known were coal miners—men of the best American instincts. In fact, the great ma-

majority of the coal miners are American citizens."

Further quizzing by the committee brought out the fact that a number of the aliens employed in the mines are now returning to their native countries.

Operators' Troubles.

Asked by the committee as to whether the combination of car shortage and possible labor troubles would produce an advance in the price of coal this winter, Mr. Taylor said:

"We were confronted in the coal business with this condition. The miners' organization is entirely exempt from the Sherman law, and can get together and make any demand on the operators they want after consulting with each other in different parts of the country. They can formulate a demand based on their own ideas, absolutely backed up by their organization, which is nation-wide and international in scope, and they can have those conferences and make their demands without any infringement of the law. Therefore, the coal operator of this country is confronted with a combination of labor which is not in any way controlled, and without infringement of the law can get together and formulate a collective demand upon the operator which forces up his cost both in price and in the conditions under which the men are employed."

"On the other hand, we are confronted by a combination in the form of a Railroad Administration, a buying combination, which does all the buying for the railroad which was formerly in the hands of local purchasing agents scattered all over the country. This purchasing power is now in a centralized body in the hands of one man, and as the railroads use practically thirty per cent of all the bituminous coal mined in this country, the coal operator scattered as he is, is confronted with the most harassing condition, and combination of conditions that it would be possible to confront him with."

Costs Forced Up.

"Labor can force up his cost price almost indefinitely and on the other hand the combination of the Railroad Administration can force his selling price down almost indefinitely at least so far as the price of the coal sold to the railroads is concerned. An equal distribution of the coal over twelve months instead of over six months would have a tendency to lower prices and make less labor unrest. It would also make better use of railroad equipment and would stabilize the industry all along."

The Real Problem.

Mr. J. D. A. Morrow, Vice President of the National Coal Association, who preceded Mr. Taylor before the committee, said that the essential problem, as the operators see it, is that of getting enough coal produced. "However," he added, "there is some general idea in the mind of the public which has been advanced by people who perhaps feel that they are well informed, that there is some kind of combination in the bituminous coal industry. We went to state fairly and emphatically that there is no combination to maintain prices or to restrict production or in any other way to interfere with the natural influences upon the conditions in the production and marketing of bituminous coal. We go further and say that the conditions in the business are such that it would be impossible for anybody to form such a combination even if he would try."

"There are about 5,000 separate commercial producers operating approximately 7,000 mines, from which bituminous coal is regularly shipped.

In addition there are some 2,000 operators with about 3,000 mines, who begin producing and selling coal whenever the price goes up a little and offers a profit to them. Thus in 1917 coal production was reported to the U. S. Geological Survey from 100,684 mines. Moreover, there are hundreds of thousands of acres of coal lands along railroads on which new mines can be readily and quickly opened by any one so disposed. Such a condition obviously does not lend itself to restrictive combination among producers. In addition the operators of each mining field are subject to competition from the producers of other fields, so that buyers have many different sources of supply available to them."

"Of the 5,000 separate bituminous coal producers in the United States, 2,294, approximately 45 per cent, hold membership in the National Coal Association. They produce about 60 per cent of the total output of bituminous coal in the country."

No Price Combination.

"Charges that the National Coal Association is a combination to maintain prices are without foundation in fact; they doubtless proceed simply from ignorance of its purposes and activities."

"The National Coal Association represents these operators and looks after their interests in matters of general concern, such as transportation and traffic questions, standardization of cost accounting, co-operation with Governmental agencies and similar activities. There is nothing secret about its business. Its files and records are open to the committee or any other duly authorized agency of the Government at any time."

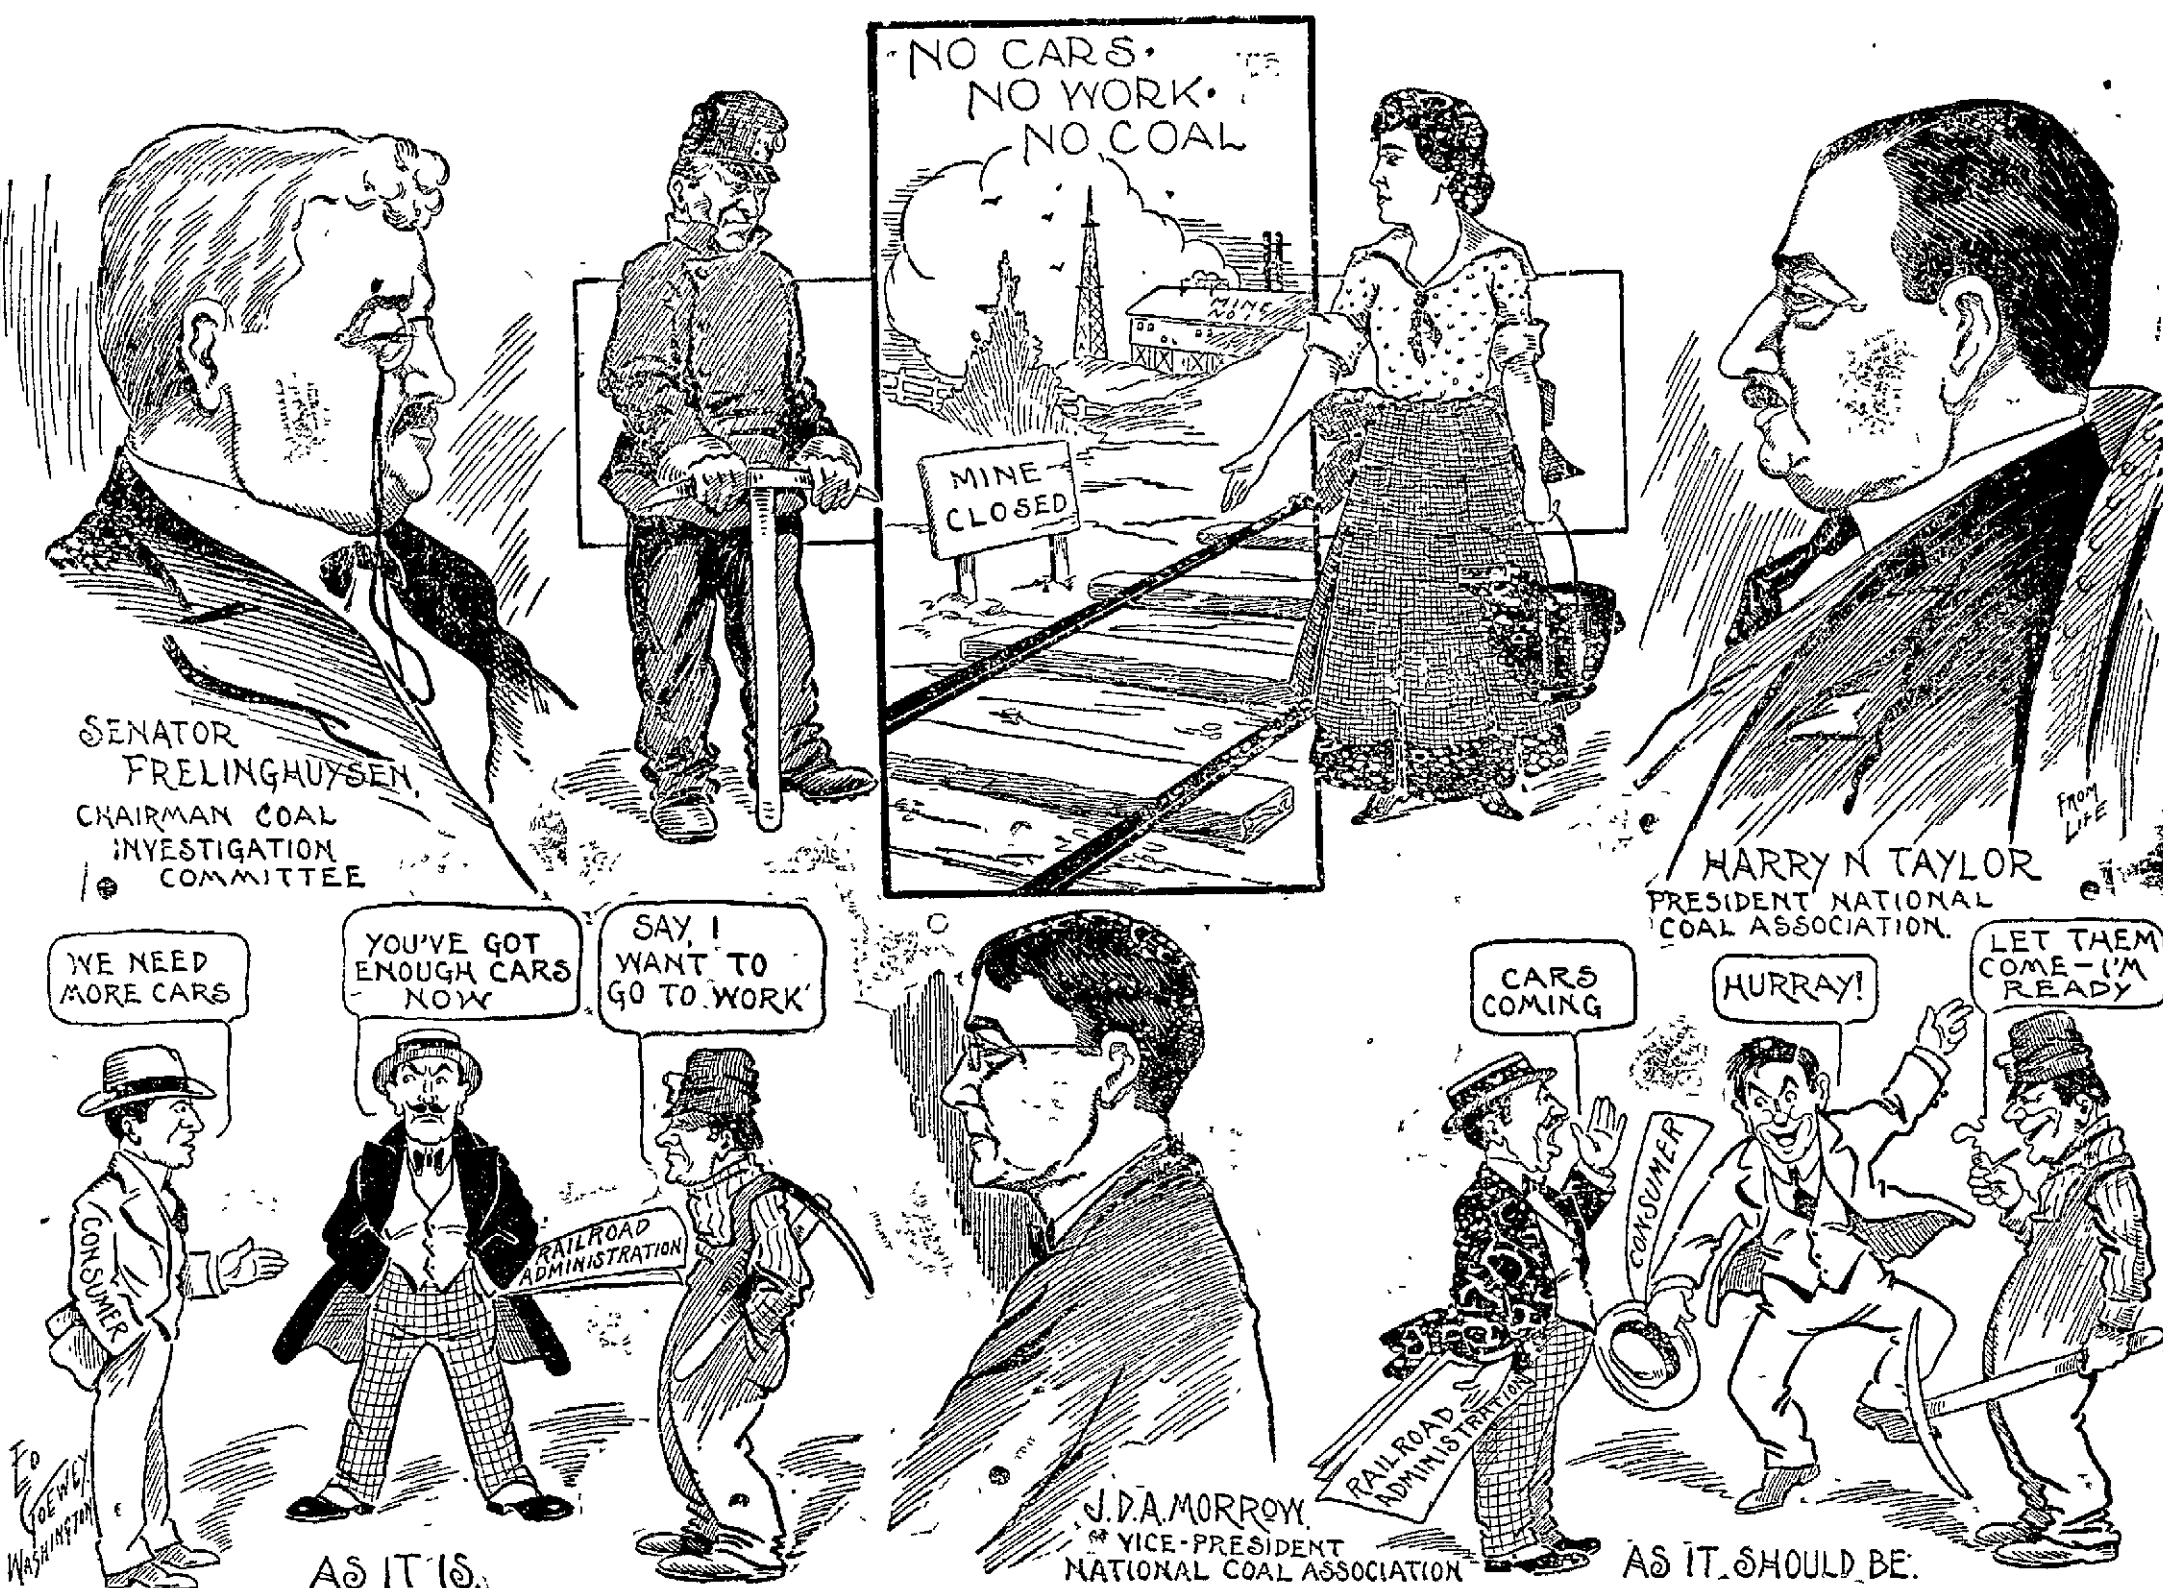

"Neither buys nor sells coal; neither does it have anything whatever to do with the prices which its members ask or sell at, nor with the territory into which they ship their coal, nor the quantity which they produce."

Mr. Morrow stated that bituminous coal prices have declined since the armistice, and in general are lower than the prices fixed by the United States Fuel Administration. He pointed out to the committee that until February 1 last, the price of bituminous coal was controlled by the maximum price fixed by the Fuel Administration in the various producing districts.

"These Fuel Administration prices were intended to prevent the charging of undue prices for bituminous coal and to limit the profits which the mine operators might make," he said. "At the same time they included fair profits in order that the production of sufficient coal should be stimulated during the war, but they did not permit exorbitant profits. The Fuel Administration prices, however, did not take quality of coal into consideration. That is, the Fuel Administration did not give higher prices to the coal producers of any district merely because the coal was of better quality than the coal produced in some adjacent mining field. Poor coals and good coals of their cost of production were the same, were treated alike, we understand, in fixing the Fuel Administration prices."

Buyers Fix Prices.

Mr. Morrow submitted charts to the committee graphically showing the prices which bituminous coal sold at the mines in different districts of the United States from April 1 to August 1, 1919. In connection with these charts, Mr. Morrow explained that when the price restrictions of

the Fuel Administration were removed on February 1, 1919, the better, more desirable coals went to a premium in the open competitive market and the less desirable coals declined in price. He stated that this was the action to be expected in a market where the buyer exercises his choice and can obtain the kind he prefers. As a result instead of the uniform prices in different districts, which were fixed by the U. S. Fuel Administration, prices promptly spread out, some coal going higher and some lower than they had been.

The charts submitted to the Committee showed that in districts producing high quality coals, such as Pittsburgh, Southern Illinois, the Harlan Field of Kentucky, etc., prices had remained at about the level set by the Fuel Administration, or had advanced a few cents above that level. In most districts, however, such as Central Pennsylvania, Northwest Pennsylvania, Eastern Ohio, Central Illinois, the Hazard field of Kentucky, Northern West Virginia, etc., Mr. Morrow said, coals of lower grade are produced. In such districts, prices declined from 10 cents to 40 cents per ton below the prices which prevailed under the U. S. Fuel Administration.

Cost Increases.

"Meantime," Mr. Morrow said, "the cost of producing bituminous coal is higher now than it was a year ago, due to the fact that the mines then were operating six days a week and in many cases are now operating only four days per week and some cases only three days a week. The overhead expense of maintaining mines goes on just the same whether coal is produced or not. These idle day expenses have resulted in increased costs per ton, as compared with last year. When these increased costs are considered in connection with the general decrease in prices, it is clear that profits of bituminous coal operators are materially less than a year ago."

Mr. Morrow drew comparisons between the prices of bituminous coals at the mines in the United States and foreign countries. "Prices at the mines in Great Britain," he said, "are about three times the mine prices prevalent in the United States; in France the mine prices are more than three times those of the United States. English mine prices range from \$ 94 to \$ 71.4 per ton, while bituminous coal in France is costing about \$ 7.75 per ton at the mines. The average mine price of bituminous coal sold in the United States is in the neighborhood of \$ 10 per ton."

Effect of Car Shortage.

The effect of car shortage upon coal production was testified to by John Callahan, Traffic Manager of the National Coal Association. "Car shortages caused the coal mines to fail to produce 5,900,000 tons of coal during the weeks ending August 2 and August 9," Mr. Callahan said. "This is sufficient coal to supply the requirements of the New Jersey for ten months."

"The difficulty today is a transportation deficiency and not a shortage of coal. Coal is one of the few commodities which can not wait on transportation. It is physically impossible in many instances, to bring coal to the surface of the earth and store it for the reason that the pit mouth is on the side of a mountain or hill."

Moreover, the proper place to store coal is at the point of consumption, where it will be available when required for use. Railroads

cars must be ready when the coal is brought out of the ground. This is absolutely essential.

"Many mines are idle today on account of no cars. Two hundred and eighty-five mines were idle because of car shortage in one West Virginia district during the week ended July 26. This was before the shop men's strike. Ninety-seven mines in this district failed to go to work in one day while many others only worked part time that day."

"The total bituminous coal lost through lack of railroad cars at the mines from the week ending June 7 to the week ending August 9, inclusive, was 12,251,762 tons, distributed by weeks as follows: June 7, 338,996; June 14, 655,190; June 21, 936,682; June 28, 644,140; July 5, 285,485; July 12, 428,359; July 19, 1,146,075; July 26, 1,764,264; August 2, 2,311,402; August 9, 3,581,180. This means 245,000 cars, or 7,000 train loads. This is more than six months' supply for all the New England states; and this loss occurred in ten vessels only."

Car Shortage Increases.

"Since July 12, this shortage has been increased by leaps and bounds. These figures are based on the United States Geological Survey reports, which indicate that whereas for the week ended July 19, where Director General Hines chose to close his recent report to the Senate, the loss on account of car shortage was 7.4 per cent of full time output, the loss on August 9, was 22.5 per cent. This is the fact of statements by the Railroad Administration to the effect that conditions are not now abnormal. In other words, the less because of no cars at mines has trebled in three weeks, and is now on a par with the ordinary shortage during severe winter months when the Railroads are handicapped by congestions and engine failures."

"The Director General points out in his report that 27,600 new cars have been built, of which 17,900 have been put in service. If all of the 37,000 cars had been in service during the week of August 9, there would still be a shortage of 34,000 cars during the one week alone; but these cars are not yet in service and they are going into service very slowly."

Concerning the number of cars now in the service, Mr. Callahan said:

"There are proportionately more cars in bad order today than closed cars. Of a total of 1,183,490 closed cars, 95,928 or 8.1 per cent were in bad order on July 12, as compared with 98,130 bad order cars, out of a total of such cars of 971,447 or 10.1 per cent coal cars in bad order. Repairs to coal cars are being neglected through a shortage of labor. Moreover, a shortage of 40 per cent of coal car ownership in ship is abnormal. There should not be to exceed 5 per cent of the total number of coal cars in shop under ordinary good railroad management."

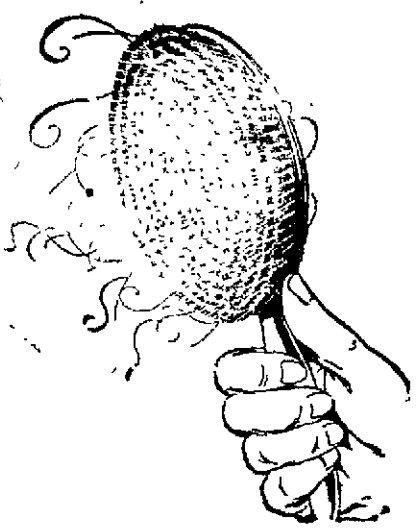

"The country is full of bad order cars. They impede the movement of freight through railroad yards in certain districts and are backing up the current of traffic."

"Moreover, 8 to 10 per cent of the 62,000 locomotives owned by the railroads under Federal control are now in the shop for classified repairs. These 5,500 or more engines according to indications, will be needed quite early this winter. They could be used now in avoiding blocking coal mines with loaded cars. If these engines are not repaired at once, they may, when required for use, be in just the same condition so many cars are in today."

## LET "DANDERINE" SAVE YOUR HAIR

Check ugly dandruff! Stop hair coming out and double its beauty.

A little "Danderine" cools, cleanses and makes the feverish, itchy scalp soft and pliable; then this stimulating tonic penetrates to the hair roots, revitalizing and invigorating every hair in the head, thus stopping the hair falling out, or getting thin, dry or fading. After a few applications of "Danderine" you seldom find a fallen hair or a patch of dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.

## INTENDING TO RESUME WORK IN SHORT TIME

### Nichols Thinks Two Years' Layoff Ended — Says Trutona Responsible

Portsmouth, O., Oct. 6.—"I haven't worked in the past two years but I think if I keep on improving as I have in the last few days, since taking Trutona, that I'll be able to get out and do some light work soon," William Nichols, 50 years old, who lives at 317 seventh street, Portsmouth, said recently.

"For years I've suffered with kidney trouble and for the past two years I've been crippled up with rheumatism," he continued. "For months I've had to use two canes to get around at all and then I could hardly walk."

"I have never found anything which gave so much relief, in such a short time as Trutona. When I took it I walked four squares with the use of one cane and before I could hardly get around with two. I did the same thing last Monday. My kidneys seem to be in better shape than they've been for years. In short, I feel better in every way, since taking Trutona. It's the best medicine I've ever taken and I want to recommend it to my friends. I'm sure it's the best medicine on the market today."

Mr. Nichols, like thousands of others, is deeply grateful to Trutona because the perfect tonic gave him almost unlooked-for relief. As a combatant of stomach, bowel and liver troubles, nervousness, sleeplessness and the like as well as a reconstructive agency, Trutona is peerless.

Trutona is now being introduced and explained in Newport at W. A. Eberman's Arcade drug store.—Adv.

## ALL VICTIMS OF ECZEMA'S ITCH NEED POSLAM

It is Poslam's mission to relieve itching eczema's cruel distress and to restore disordered skin to sightliness and health. Comfort comes as soon as it is applied to the sore places. Its concentrated healing power quickly shows. Each day should mark distinct improvement. So effective is Poslam for eczema, rashes, pimples, scalp scale that just a little of it goes far, does much and lasts long. Its quality that counts.

Sold everywhere. For free sample write to Emergency Laboratories, 243 West 47th St., New York City. Urge your skin to become fresher, clearer, better by the use of Poslam Soap, medicated with Poslam.—Adv.

## REV. HICKMAN'S HEALTH RESTORED BY DR. PARKER

"I treated with various doctors," says Rev. W. Hickman, 127 Locust St., Newark, Ohio, "but took other medicines, but received only temporary relief and gradually grew weaker. A friend recommended Dr. Parker's Treatment. The first box gave relief. A few boxes cured me. I gladly recommend Dr. Parker's Treatment, believing it will cure the worst case if taken as recommended."

There is nothing remarkable about the case of Rev. W. Hickman, as Dr. Parker worked for 25 years to produce a successful treatment for Constipation and Indigestion. Hundreds of other sufferers from restless sleep, cold feet and hands, belching, flatulence, sour stomach, headaches, backaches, pain in stomach and bowels, fitful appetite and other symptoms of Indigestion and Constipation, have been relieved by Dr. Parker's Treatment. Dr. Geo. T. Parker's Treatment for Constipation and Indigestion, made at Athens, Ohio. Sold at Wilson's Drug Store and all druggists.—Adv.

## OLD "BOYS" TAKE SCOUT TRAINING

Troop of Men Is Formed to Be Turned Into Leaders — They Learn Some Things About Knots.

Twenty-five "boys" some of them with gray hair and some with bald heads, last night were organized into "Troop 100 Boy Scouts of America," with Scout Executive K. L. Brown as Scout Leader. Troop 100 is the training class for scout leaders organized by Brown and upon whom will rest the responsibility of carrying on scout work when some of the regular leaders are for any reason not available.

The troop is composed of Newark business and professional men and while the ages range from 18 to 37 they were all told that they were expected to forget their ages and become boys of 12 to 16.

It was quite a struggle for all of them but a good start was made and when they have met a few more times it is predicted that they will all be regular boys.

The course of training outlined will be the same as that taken by the scouts in their regular work. Last night they heard talks by Fred M. Black and R. P. Franklin on the ways and wherefores of scouts and upon whom will rest the responsibility of carrying on scout work when some of the regular leaders are for any reason not available.

Practical scout work was taken up when the men were formed into three patrols each with an experienced scout leader as a patrol leader, and they were put through the knot-tying rank which is the first thing a scout must learn after he has mastered the oath and the Scout law. Each "boy" was given a two foot length of window sash rope and shown how to tie the various knots. Some of 'em did it, but its a safe bet that few were able to do so 24 hours later.

The patrols were given a half hour of military drill, each patrol having as a drill master an ex-service man. At lot of them discovered for the first time that each had a left foot and a right foot and both seemed to be beyond control at times. Patient drill masters however brought some semblance of military control out of the awkward squads.

Scout Executive Brown explained the course which it is planned to carry through in eight weeks. It will include every phase of scouting and the final test will come when the embryo-leaders will be taken on a hike, each carrying his supper—uncooked. He will be told to cook it or go hungry. Medical attendance will be provided, by the first aid squad.

The "boys" met last night at the Second Presbyterian church and another meeting will be held at the same place next Monday evening at 7 o'clock.

## FINED \$100 FOR FOOD VIOLATION; PAYS SAME

The case of Ohio vs. Edward Lannahan, a salesman for the Columbus Packing company, was disposed of Monday afternoon in justice Jones' court.

Lannahan was charged with selling pork to Newark and Pataskala customers that had been in storage longer than six months. There were three charges filed and in each a fine of \$100 was assessed, but at the suggestion of the state two of the fines were suspended. One fine of \$100 and costs was paid.

## MASSILLON GRIDDERS TO PLAY IN NEW YORK

Akron, Oct. 7.—Names of several famous All-American footballers are included in the roster of the Massillon Tigers, professional champions, who play Charley Drickley's Knickerbockers at the New York Polo Grounds, Sunday. Manager John Donahue of the Tigers, said here today that Peck, Thornhill, Nash, Coffell, Heron, Westbecker, McGinniss and Dorias have been signed to play. The champions opened at Youngstown Sunday winning 24 to 0.

## 25 Years Ago

(From Advocate, Oct. 7, 1894.)  
A progressive kindergarten social was given by Miss Minnie Williams' "Good Will" mission band of the Second Presbyterian church at the home of Mrs. John Dean.

The thermometer registered 45 degrees at noon today.

The Eureka orchestra will furnish the music for the opera hall this season.

**FIFTEEN YEARS AGO TODAY.**  
(From Advocate, Oct. 7, 1904.)

Mr. and Mrs. Charlie Sebring announce the birth of a son. Miss Florence King and Mrs. E. B. Merriman are in New York for a visit. Natural gas was ignited in the street by an electric arc lamp. The fire department could not extinguish the blaze until after the gas was turned off.

# Revised Schedule Net Prices VACUUM CUP CASINGS "TON TESTED" TUBES

Standardized and Uniform Throughout the United States

BASED on raw materials, purchased at comparatively low prices, Vacuum Cup Tires and "Ton Tested" Tubes—the choice of a million motorists—were, on July 19, and for the second time during the current year, substantially reduced in price.

Now, a high and rising market on fabric and other materials compels announcement of revised schedule, effective October 1, as follows:

Size	Vacuum Cup Casings Fabric	Vacuum Cup Casings Cord	Channel Tread Casings Cord	"Ton Tested" Tubes Regular	"Ton Tested" Tubes Extra-heavy Cord Type
30x3	18.45			3.00	3.75
30x3 1/2	23.70	38.55	35.85	3.50	4.40
32x3 1/2	27.90	42.95	39.95	3.80	4.75
31x4	37.30			5.20	6.50
32x4	37.95	54.45	49.05	5.25	6.55
33x4	40.05	56.00	50.45	5.50	6.90
34x4	40.85	57.40	51.65	5.65	7.05
32x4 1/2	52.75	61.35	53.75	6.80	8.50
33x4 1/2	54.90	63.00	55.20	6.95	8.70
34x4 1/2	55.35	64.65	58.20	7.00	8.75
35x4 1/2	57.60	66.15	59.60	7.10	8.90
36x4 1/2	58.20	67.80	61.00	7.30	9.15
33x5	67.40	76.60	68.95	8.95	10.05
35x5	70.95	80.35	72.35	8.50	10.65
37x5	74.60	84.05	75.70	8.85	11.05

Adjustment basis—per warranty tag attached to each casing:

## DEWS OF EVE

No More Gentle Than  
"Cascarets" for the  
Liver, Bowels

It is just as needless as it is dangerous to take violent or nasty cathartics. Nature provides no shock-absorbers for your liver and bowels against calomel, harsh pills, sickening oil and salts. Cascarets give quick relief without injury from Constipation, Dilatation, Indigestion, Gases and Sick Headache. Cascarets work while you sleep, removing the toxins, poisons and sour, indigestible waste without griping or inconvenience. Cascarets regulate by strengthening the bowel muscles. They cost so little too.—Adv.

## HOW ARE YOUR KIDNEYS? ASKS DR. CAREY, SPECIALIST

Famous Kidney and Bladder Physician Retiring From Active Practice Appoints Evans' Cut Rate Drug Store Agent in this Vicinity For His Great Medicine, Marshroot.

During his forty years of constant practice Dr. Daniel G. Carey has helped many thousands of despairing kidney diseased men and women in all sections of the country to regain robust health.

Don't take any chances with your kidneys. If you have the faintest suspicion that your kidneys are weak or your bladder is irritated the wisest thing you can do is to get a bottle of Dr. Carey's Marshroot at once.

Remember, Marshroot is not a cure-all or patent medicine, but is Dr. Carey's most wonderful prescription, which he now gives to the world and his army of patients only because he has decided to retire from active practice.

The latest signals often indicate that the kidneys are ailing and need attention.

Dry skin for instances and little specks floating before the eyes. Sometimes the feet feel heavy, as if your shoes were full of lead.

Often the joints ache or you have quick, darting pains shooting through the back or side.

Then again that frequent desire to empty the bladder, cold, clammy feet and just a little puffiness under the eyes.

Occasionally the hands or feet swell slightly and the palms of the hands are moist.

No regular practicing physician has devoted more time to the study of kidney and bladder diseases than Dr. Carey. He himself asserts that many thousands of cases of Bright's disease and even diabetes could have been conquered by Marshroot, if it had been taken in time. Hereafter you can always get this effective prescription at Evans' Cut Rate Drug Store and all reliable pharmacists the country over.

Keep in mind the name, Dr. Carey's Marshroot. No other medicine can take its place.—Adv.

## AUDITORIUM

**Miss Blue Eyes.**  
The Auditorium tonight offers Harvey D. Orr's Big New York Musical Comedy "Miss Blue Eyes" a show that can one solid year at the 39th street theatre New York. It comes here with a personnel of forty people including a number of well known principals and a bevy of pretty girls. Mr. Orr, who has been one of the most successful of musical comedy producers, gives us the assurance that "Miss Blue Eyes" is his highest attraction in the musical comedy line and the most successful of all his late productions.

The Baltimore American says "Miss Blue Eyes" is a musical play by George V. Hobart, lyrics by Edward Panton, and music by Silvio Hein was presented last evening to a large audience at the Academy and received with much laughter and applause. The piece has rather more of a plot than most musical comedies, there is plenty of farcical fun and clever lines. The score is tuneful and two songs "Nobody Can Take My Heart From You" and "Don't you see I'm in love" are decidedly of the whistly kind. A good cast has been selected and the chorus is very attractive. "Miss Blue Eyes" should charm large audiences all week at the Academy." Seats now selling.

**Scandal.**  
Walter Hast's sensational successful production of the comedy "Scandal," which was the talk of Chicago for seven months where it taxed the capacity of the Garrick theatre, will be brought to this city on tomorrow night at the Auditorium theatre.

The human appeal of this Cosmo Hamilton comedy has an exceptional interest to all classes of theatregoers. "Scandal," unfolds a story involving a perverse and headstrong daughter of the idle rich, who leads a blameless life with an old New York millionaire, who to save herself embarrassing situation with an artist in his studio at midnight where she was found by her fond parents, pretends to be his wife, much to the astonishment of the rich acquaintances of her family. She tells the world she is his wife, forces him to shield her and house her, yet will not marry. Later on, mutual love develops and all ends happily as it would in well regulated boulevard comedy.

Mr. Hast is sending a cast here of considerable merit. Seats now selling.

**Kindred of Dreams.**  
Did a kind Providence wisely decide the horrible death of young Jim Warren?

This is the question that will confront those who attend the showing of "Her Kingdom of Dreams," starring Anita Stewart and which will be seen commencing Thursday at the Auditorium theatre.

As the youngest and most beloved son of the wealthy James Warren, prominent Wall Street banker, the youth meets his death in time to save his reputation. A forged check and a semi-disreputable woman are the incidents that point an almost accusing finger of shame at him even at his death. This leads Fred Warren, oldest son, to proclaim that he forged the check.

How Judith Rutledge, played by Anita Stewart, private secretary to the elder Warren, marries Fred at

the request of her dying employer is but the beginning of a series of most unusual incidents which combine to make "Her Kingdom of Dreams" probably the most appealing photoplay seen on the Auditorium theatre's screen in many days.

**The Lady in Red.**  
Anne Caldwell, who provided the book and lyrics of "The Lady in Red" which will be the attraction at the Auditorium theatre next Monday night is one of the most expert writers of snappy dialogue and lively lyrics known to

ANITA STEWART

the stage of today. Other than "The Lady in Red," Miss Caldwell's particular hits have been "Chin Chin" which she wrote for Montgomery and Stone, "Jack of Lantern" for Fred Stone, and "She's a Good Fellow," which Charles Dillingham produced last season with signal success. The story that Miss Caldwell has provided for "The Lady in Red" is one that lends itself admirably to pictorial scenic effects, sartorial splendor and for the introduction of lively dance numbers.

**LYRIC.**  
Hal Hoyt's Gee Whizz Revue company opened a week's engagement at the Lyric theatre yesterday afternoon and all were delighted with the pleasing performances given. The company is headed by Jack Wulm, who has a way with him that is very pleasing to

lovers of amusement. Miss Myre Itoze, is a singing comedienne, who wins her audience from the start, Eddie Cole who was a comedian with the American Stock company in this city several years ago, is the same funny fellow and Dave Morris is a ballad singer of exceptional ability.

**THE GRAND.**  
An interesting story of mystery is the five-reel picture, "The Mysterious Mr. Browning," which comes to the Grand theatre today and tomorrow. "The Mysterious Mr. Browning" is a story taken from real life. Some few years ago there was unearthed in Denver a case of a bank president leading a double life. By day a respectable business man, and by night a prowler

in the underworld. The object of this night prowling and the necessity for his dual existence forms the mystery which is solved by the picture.

A Christie Comedy, in which Bobby Vernon and Dorothy Devore are starring is also shown.

**ALHAMBRA.**  
"The Danger Mark."

Affording her unusual opportunities for the display of her great histrionic talents, "The Danger Mark," a photoplay starring Elsie Ferguson, the beautiful actress star, will be shown at the Alhambra theatre today. This is a notable picturization of Robert W. Chambers' novel and the theme deals with the trials of a young society woman of wealth who has inherited a

## DON'T ASK FOR EPSOM SALTS

Take the kind that tastes like  
lemonade—Read!

Instead of asking for the common Epsom Salts, ask for Epsomade Salts hereafter. You will get a big package for only 15 cents. Epsomade Salts looks and acts exactly like Epsom Salts, because it is Epsom Salts combined with fruit derivatives thus making a sparkling, effervescent, lemonade-like drink for the liver and bowels. Take a tablespoonful of this delicious Salts in a glass of cold water when you feel bilious, sick, headachy or constipated and get the quick and splendid action of a dose of Epsom Salts without the horrible taste. Epsomade Salts will replace the old Epsom Salts, Rochelle Salts, Sodium Phosphate and Cathartic Pills in every home, say local druggists. (ADV.)

## Look Out For Symptoms; Disease Comes Gradually.

There is a reason for every pain, every dizzy spell. Little sharp jabs of pain, stiffness in bending, swollen joints, are all forerunners of disease that will become fatal unless their march is halted. There's no sense in allowing your condition to become run down. Dodd's Kidney Pills will eliminate all of your chronic ills. Get Dodd's (three D's in the name) from your druggist. If he can't supply you send 60c. in stamps and your druggist's name to the Dodd Medicine Co., Buffalo, N. Y., and we'll send you the flat, round box. Also—Diamond Dinner Pills are a safe, mild cathartic.

(Continued From Page 9)  
the like. In "The Danger Mark" how-  
ever, the victim of an inherited taste  
for liquor is a beautiful wealthy soci-  
ety young woman.

It is a double program at the Al-  
hambra today for Sessue Hayakawa  
is also shown.  
"Broken Commandments."  
Gladys Brockwell is the bright par-  
ticular star at the Alhambra tomorrow  
and Thursday and she will be seen in  
the Win Fox feature, "Broken Com-  
mandments." In this, as Nella Benard,  
a young girl of the California Red-  
lands, she has a role that fits her to a  
T. The story:  
Impulsive girl love leads Nella Benard  
to trust "Sporting Chance" Austin  
when he comes to her lonely cabin in

brutal Benard determines to have her  
anyway. All Austin drives him off at  
the point of a pistol. Then Austin marks  
Nella against her will, toss for her  
own virtue, and again he wins. The  
girl detests a gun on Austin, but he  
pacifies her and for a week she nurses  
his wound and they become friends.  
A third time Austin gambles—for  
Nella's friendship or her virtue. Chance  
falls on the latter. In love and trust  
the girl yields to him.  
Spaulth's Vodka-vil is also shown.

"Leave It to Susan."  
A chuckle every second and a laugh  
a minute is the guaranteed speed record  
of "Leave It to Susan." Madge Ken-  
nedy's new Goldwyn Picture, which  
comes to the Alhambra theatre begin-  
ning Friday.  
She is the daughter of a mining cap-

A TENSE SCENE FROM THE 2ND ACT OF COSMO HAMILTON'S FRANK  
AND WITTY COMEDY SCANDAL, AUDITORIUM, WED. OCT. 8.

the California redwoods out of the un-  
known, wounded, and she nurses him  
for a week. Nella, young, fearless,  
has been left alone by her parents, who  
have gone to the city for an operation  
on the old father's eyes.  
Austin—known as "Sporting Chance"  
because he habitually throws dice be-  
fore he makes a move—escapes from  
the penitentiary with his pal Berger.  
Dressed in garments stolen in their  
flight, they burst into the little mount-  
ain cabin in flight from a storm. Nella  
first pities Austin because he has been  
wounded, then is drawn to him because  
he is kind to her dog.  
The two men toss coins for posses-  
sion of the girl—Austin wins. The

italian who is taking her on a Western  
trip with him, accompanied by her  
mother and a ridiculous suitor. Un-  
known to anyone aboard but the father  
is a young mining engineer, Jimmy  
Dawson (Wallace MacDonald), retained  
by the father to investigate beforehand  
the property the capitalist is interested  
in. They have arranged a code and  
Jimmy will wire to Susan's father at a  
certain hour.  
The inevitable hot box occurs on the  
long trip across the American desert  
and Susan takes the opportunity to give  
her dog an airing. They are left be-  
hind and after long hours Susan finds  
herself at nightfall in a tumble-down  
snack.

## One of the Inspirations I Found in T.R.'s Life

By JOHN A. ALBURN, Cleveland

THEODORE ROOSEVELT was often de-  
nounced as "im-  
pulsive" by the  
milder of his crit-  
ics. He was sup-  
posed by them to  
act without think-  
ing. He really  
thought a thing  
through before  
acting, but he  
thought it through  
so quickly that  
slower-minded  
men could not  
realize this.  
And he certainly had formed the  
habit of following decision with action  
without the needless loss of a mo-  
ment. He must have originated the  
 motto, "Do it now." He was in college, a horse in  
a stable near his lodgings made a loud  
noise one night that showed the poor  
animal to be in trouble—probably cast  
in the stall and choking to death.  
The note of alarm awakened a half-  
dozen kind-hearted neighbors. But  
they were there only in time to lend a  
hand at the finish.  
Young Roosevelt had got to the spot

already and had relieved the first  
necessities of the horse. The prompt-  
ness of his response was due to the  
fact that he had come as he was—clad  
in nothing but a night-shirt—and had  
dropped out of a second-story window  
to save time.  
It is because of Theodore's willing-  
ness—gladness, indeed—to make ANY  
personal sacrifice, at any time, to help  
a sick horse, or a human being, or a  
cause, or his country, that we want  
to build a memorial to him that will keep  
his qualities before generations to  
come. That is why Ohio is going to  
raise \$500,000 by popular subscription,  
beginning October 20. I don't believe  
there is a man or woman—or child—in  
the State who will not want to con-  
tribute.

## Keeps Your Stove Shining Bright

Give a brilliant glossy shine that  
does not rub off or dust off—that  
annoys to the iron—that lasts four  
times as long as any other.  
**Black Silk Stove Polish**  
is in a class by itself. It's more  
carefully made and made  
from better materials.  
Try it on your parlor  
stove, your cookstove  
or your gas range.  
If you don't find it  
the best polish you  
ever used, your  
hardware or  
grocery dealer is  
authorized to re-  
fund your  
money.  
There's "A  
Shine in  
Every Drop"  
**Get a Can TODAY**

## BETTER DEAD

Life is a burden when the body  
is racked with pain. Everything  
worries and the victim becomes  
despondent and downhearted. To  
bring back the sunshine take

**GOLD MEDAL  
HAARLEM OIL**  
CAPSULES  
The national remedy of Holland for over  
200 years; it is an enemy of all pains re-  
sulting from kidney, liver and uric acid  
troubles. All druggists, three sizes.  
Look for the name Gold Medal on every box  
and accept no imitation.

## Simple Way To End Dandruff

There is one sure way that has never  
failed to remove dandruff at once, and  
that is to dissolve it, then you destroy it  
entirely. To do this, just get about four  
ounces of plain, common liquid arvon  
from any drug store (this is all you will  
need), apply it at night when retiring;  
use enough to moisten the scalp and rub  
it in gently with the finger tips.

By morning, most if not all, of your  
dandruff will be gone, and three or four  
more applications will completely dis-  
solve and entirely destroy every single  
sign and trace of it, no matter how much  
dandruff you may have.  
You will find all itching and digging  
of the scalp will stop instantly, and your  
hair will be fluffy, lustrous, glossy, silky  
and soft, and look and feel a hundred  
times better.

## "Gets-It" Peels Off Corns Painlessly

Off They Come Like Banana Skin.  
2 or 3 Drops, That's All.  
There's a murderous, painful way  
to get rid of corns, and then there  
is the peaceful, glorious "peel-it-  
off" "gets-it" way. After you have  
tried "Gets-It" you will say "never

Cut It? Quit It! "Gets-It" Peels It!  
again" to all other methods. This  
is because "gets-it" is the only  
corn-remover on earth that makes  
corns peel off just like a banana  
skin. Two or three drops will do  
the work, without fussing, or trou-  
ble. You apply it in 2 or 3 seconds.  
It dries immediately. "Gets-It"  
does the rest, without bandages,  
plasters, blood-tinging knives or  
razors. Get rid of that corn-pain at  
once, so that you can work and play  
without corn torture. Be sure to  
use "Gets-It". It never fails.  
"Gets-It" the only sure, guaranteed,  
money-back corn-remover, costs but  
a trifle at any drug store. Mfgd by  
E. Lawrence & Co., Chicago, Ill.

Sold in Newark and recommended as  
the world's best corn remedy by T. J.  
Evans, W. A. Erman and R. W. Smith.

## Telephone Service.

## FIFTY-FIFTY.

You have all heard the expression 50-50 and have no  
doubt used it at times to indicate an even divide.

We have a new use for the expression. The number  
of automatic stations in Newark at the close of business  
last night was 5050.

It might be interesting at this time, before the two  
local companies are actually consolidated to note the  
number of telephone stations of this company, for the  
various exchanges. The list is as follows:

Newark	5050
Granville	526
Hanover	143
St. Louisville	113
Somersel	150
Glenford	163
Gratiot	354
Total	6499

This is a substantial increase during the present year,  
during all of which time the present rates for telephone  
service has not increased in Newark in more than a year  
to attack, have been in force. The rate for telephone  
service has not increased in Newark in more than a year,  
which is more than can be said of practically every serv-  
ice that enters into the running of the home.

We are very proud of the increase in the number of  
telephones this year. It is indicative of good service at  
rates that are acceptable to the people who pay the bills,  
if not to the city officials who have their office tele-  
phones at public expense.

## THE NEWARK TELEPHONE COMPANY.

Charles E. Hollander,  
General Manager.

Practical working and sturdy  
wearing qualities are combined in

## MARIETTA ENAMELS

Whether in super-white, elegant old  
ivory, or any of a number of exquisite  
tones, they have a rare beauty for  
which "de luxe" seems the only  
descriptive term.

Specify "Marietta" Enamels when  
aiming your highest. Your Painter  
can prove our every claim.

**AURORA

Enamels  
Varnishes  
Spartana  
(Varnish Stain)

## Remember This.

One advertisement will not do the work, neither will two adver-  
tisements. It takes continuous advertising to bring home the bacon.  
That is the reason our large institutions are larger. They were  
small businesses a few years ago, but through continuous adver-  
tising they have grown to large institutions. Think this over.

## Continental Sanitary Window Ventilators

Fresh Air  
Without  
Drafts, Dust,  
Rain or Snow

For Bed Rooms,

## LOOK! READ THIS, PLEASE!

As we are infants in the Automobile  
business and like all new beginners  
have to make the acquaintance of the  
public through advertising, we are go-  
ing to give some person the benefit of  
this ad. Starting at noon Wednesday,  
October 8th we are giving away a place on  
slede Mobilm 6, 47 horse power, speed  
one to 75 miles per hour. Price \$1475.00  
F. O. B. Newark. We will at noon  
each day cut the price of this Beautiful  
Little Mobilm \$100.00 until sold. Reo,  
Coisco, Volue and Mobilm Garage,  
DICK CURRY Mgr. Corner Main &  
Fifth street, Newark, Ohio, Phone 1045.  
10-7-1t x

**Apples, Pears, Quinces.**

1000 bushels winter ap-  
ples, hand picked, good as-  
sorted varieties, also car ex-  
tra fine canning pears and  
quinces. Special prices on  
large lots. See us before  
you buy. We still have a  
few fine peaches. These will  
be the last this season. See  
us about them. Where  
quality counts. Jake Lich-  
enstein, rear new market  
house, South Third street.  
10-7-2t

The Arcade Florist for  
fresh cut flowers. 10-1-tf

## HAIR GOODS

We carry a complete line of hair  
hair switches, transformations and  
hair goods of every description. In-  
spect our stock and get our prices be-  
fore buying. Mac Eowens Beauty  
Shop, in the Arcade. 10-7-3t

## Observe Fire Prevention Day.

A mass meeting in observance of  
"Fire Prevention Day" will be held at  
T. M. C. A. Hall, Thursday evening,  
at 7:30 o'clock, under the auspices of  
the West Main street beautifying  
society. There will be good speaking.

Phillip Straar, veteran cobbler, living  
in 55 South Fifth street, suffered a  
stroke of paralysis. His entire right  
side was affected.

## Fireman Has Operation.

John A. Stump, a member of the  
Central station fire department, under-  
went a successful operation today at  
the City Hospital for the removal of  
his tonsils and is resting comfortably.

## Resumes Position.

Miss Anna Hohl returned to Cleve-  
land at noon today where she will re-  
sume her position as head nurse in  
charge of the operating room at St.  
Ann's hospital in Woodlawn avenue.

## Health Restored.

Mrs. Dode Kuster has returned to  
her home in Commodore street after  
having taken treatment for an exten-  
sive period and has been fully restored  
to her former good health.

## Swingle Rests Comfortably.

Frederick Swingle, whose leg was  
broken when an auto struck him in  
Hudson avenue several days ago, is  
resting comfortably now. It was nec-  
essary to reset the leg on last Friday.

## AKRON RUBBER TEAM MAY MEET B. & O. BOYS

Sandy Murray's B. & O. team of  
footballers, face a hard contest Sun-  
day, even though the team's opponent  
is not yet definitely chosen. The Rail-  
roaders will meet the Goodwin Repu-  
blans of Akron or the Linden Whistles  
of Columbus. Either team is a formid-  
able foe. The Columbus team has the  
reputation of being the fastest 155-  
pound aggregation in the Capital City  
and of course the Rubber men will be  
able to put up a strong combination.  
Murray announced that it would be  
definitely decided late today which team  
would appear here.

Murray issued a call for the B. &  
O. team to meet at the Webb street  
grounds tonight at 8 o'clock for prac-  
tice.

## COURT OF APPEALS OPENS SESSION HERE

The October term of the court of ap-  
peals convened in this city on Tues-  
day morning, with Judges Houck,  
Shields and Patterson on the bench.  
After convening court, the court  
called the docket and stated that all the  
cases were to be heard this term, if  
possible, and that the court would re-  
main here until the docket is cleared  
up, all the necessary time being given  
for the proper hearing of the cases.  
Cases will be heard in their order, with-  
out reference to whether they are ap-  
peal or error.

## MIDLAND OIL COMPANY INCREASES CAPITAL

The Midland Oil company of Newark  
has increased its capital stock \$90,000.  
The company was recently incorpo-  
rated for \$90,000 and today it was in-  
creased to \$180,000. Among the New-  
ark men interested are D. E. Gurr, J.  
Henry Miller and others.

## BAPTISTS MEET IN DAYTON.

Dayton, Oct. 7.—More than 500  
churches are expected to send dele-  
gates to the 94th annual session of the  
Ohio Baptist convention, which will  
be held in Dayton, October 20 to 23.  
Dr. W. W. Bustard, pastor of the Eu-  
clid Avenue Baptist church of Cleve-  
land will preach the annual sermon.

## IN THESE DAYS

Of Plenty, That Person Is  
Wise Who Lays Away  
The Surplus Earnings.

## IT IS NOT TOO LATE

to begin a course in the New-  
ark Business College. You  
can begin any day or even-  
ing.

Spend a few months in this  
College and you will be sur-  
prised how soon you will be  
ready for a good position.

sooner you will be earning a  
bigger salary."

Phone 1092 for Information.

## ORR HEADS H. S. ATHLETIC ASSO.

Vote For Secretary Fails to  
give Either of Three Can-  
didates for Place, a Ma-  
jority—Will Vote Again.

At a meeting of the Athletic associa-  
tion of the high school Monday morn-  
ing, James Orr was elected president  
of the association. None of the three  
contestants for secretary, Howard  
Workman, Elsworth Davis and Paul  
Harlow, was elected. Neither had a  
majority of the votes cast. A new  
vote will be taken later to fill the office.  
L. G. Mallor addressed the boys  
concerning the game with Zanesville  
to be played Saturday. Mr. Mallor  
said that he wanted the boys of the  
association to turn out en masse for  
the game Saturday as it was a game  
of great interest to the students of the  
high school and to the public in gen-  
eral.

## WINS BET ON BALL GAME; GETS BRIDE

Marietta, Oct. 7.—The batteries for  
Friday's world series game had just  
been announced a city fireman rushed  
into a defunctory and called a young  
lady employee aside.  
"If Chicago wins, you and I will get  
married; if Cincinnati wins I lose you,"  
the fireman proposed.  
Now fellow firemen are looking for-  
ward to the tieing of the knot.

## CALL SALOONISTS TO TELL OF BEER SALES

Cincinnati, Oct. 7.—A score of Cin-  
cinnati saloonists were cited yesterday  
to appear before the United States in-  
ternal revenue collector to answer ques-  
tions relative to the sale of 2.75 beer.  
The action was the result of an inves-  
tigation made Sunday by federal  
agents. Cincinnati grocers say they  
do not violate the law by making beer  
of 2.75 strength and charge that a cer-  
tain Milwaukee brewery was unable to  
fill its orders here. Samples of the  
beer were taken and the saloonists  
cited. They will have to obtain retail  
liquor dealers licenses and then place  
themselves amenable to the state li-  
cense tax of \$1,000 a year.

## BOWLING

In the opening of the United league  
last night on the Pastime alleys, Sperry-  
Harris won two out of three games  
from Besanceney Bros. Schenk and  
Kates tied for high score. Schenk had  
high total.

## NOTICE OF ELECTION.

Notice is hereby given under Section  
6926 of the General Code of Ohio by the  
County Commissioners of Licking  
County, Ohio, that on Tuesday, the 4th  
day of November, A. D. 1919, at the  
polls of all precincts of said county  
and within the regular voting hours,  
there will be submitted to the electors  
of said county the question of exempt-  
ing from all tax limitations the levy of  
two mills provided by Section 6926  
of the General Code for the purpose of  
paying such county's proportion of the  
compensation, damages, costs and ex-  
penses of constructing, reconstructing,  
maintaining and repairing county  
roads, such exemptions to continue for  
the term of ten years.

Witness our hands this 24th day of  
September, 1919.

C. D. LAKE,  
J. E. McCRACKEN,  
J. C. BUTT,  
County Commissioners of Licking  
County, Ohio. 9-25-412t

## A Special Showing of Sheer Colored Novelty Handkerchiefs At 15c Each

Over 50 Different Patterns.

These attractive handkerchiefs are shown in pretty Persian patterns—fancy stripe borders, check borders, or odd designs formed of several different colors. Some have plain white centers—others are colored centers. These will make dainty holiday gifts as well, and the early gift seeker will want to choose now from this showing.

**F. W. H. Mazy Company**

## BUSINESS MEN LIKE LATE AFTERNOON CLASS

Before the gym season opened at the Y. M. C. A. this fall, a study was made of the classes of last year to determine the present needs of the local field. Several changes were made in the schedule but more conspicuous was the addition of another class for business men. In outlining the program for this class W. L. Grieser felt that a number of things should be taken into consideration, namely an early start and an early getaway. It was believed this would make a strong appeal to the busy business man who wants to take exercise and get home in time for his regular dinner. The type of exercise prescribed to the class is based on Grieser's long experience as a physical director. The class has already enrolled some of Newark's professional men and is open to serve many more. This Busy Business Men's class meets on Tuesdays and Thursdays. The aim of the class is to start at 5 o'clock, work at five o'clock, going through the calisthenic drill and playing a short game of volleyball by 5:30 o'clock, then get a shower bath, and arrive home in time for the regular dinner.

## KIWANIANS PLAN TO ATTEND DIST. MEET

An attendance of more than 80 per cent was received Monday at the Kiwanis club meeting. This per cent has held throughout the entire existence of the club, a year and a half. J. A. Tait of the high school faculty was entertained as guest speaker and a demonstration was put on in the form of a record-breaking roll call for the pleasure of the guest. Messrs. Wobbeke and MacFarland were appointed as Kiwanis representatives on the Chicago and Cincinnati Newsboys' association. The club officials are expecting to attend the district organization meeting at Columbus, October 15. This will be an all-day affair and marks the formation of a district government for Kiwanis. The Kiwanis movement has assumed such proportions, that word has come of a club on the west front which pays its secretary \$3,000 a year. The Newark club is gaining in numbers and strength, steadily, month by month. It is one of the honor clubs of the city, candidates being proposed from within.

## FIFTY ARMY AVIATORS READY FOR LONG RACE

Mineola, N. Y., Oct. 7.—More than 50 aviators at Roosevelt Field were giving the final tuning up today for the race in which they will start tomorrow morning on the first leg of the trans continental race between Mineola and San Francisco.

About 70 planes in all are expected to participate in the race which is being arranged by the United States army air service and the American Flying Club as a test of the various types of planes developed during the war. In addition to the starters from Mineola more than a score of airmen will start at San Francisco.

Added interest will be given to the race today with announcement by American Flying Club officials that the race a return affair—5,500 miles instead of 2,700 miles as originally contemplated. Entrants will start on the return flight two days after the last plane has completed the transcontinental trip, it was stated.

## Y MAY OPEN CLASSES FOR EMPLOYED MEN

Application was made Monday at the Y. M. C. A. for instruction in mechanical drawing. During the war period nothing was done along educational lines at the Y, but a good opportunity presents itself now for evening study, as there is not now the constant anxiety of being called suddenly to the colors. Secretary Lender has derived into the subject and feels that a class could be started with a minimum of six members at a cost to the students of \$16 for a course of 30 lessons. The students to furnish instruments. Several teachers, competent to handle this work, are within reach, and Secretary Lender suggests that any employed boys or young men wishing to improve their evening leisure might find lucrative employment in such a class. The Y would appreciate any suggestions along this line.

## ODD FELLOWS HOLD HOMECOMING TONIGHT

The annual homecoming of the Odd Fellows of Newark will be held this evening at 7:30 o'clock at the Odd Fellows Temple. The speakers for the occasion will be: Grand master, H. D. Chaffin of Columbus; past grand master F. E. Slabaugh of Newark and Attorney C. N. Moore of Newark.

## YANK NAVY WITHDRAWN FROM DALMATIAN PORT

Rome, Oct. 7.—American warships, which have been at Spalato, Dalmatia, since early last December are to be withdrawn by Rear Admiral Philip Andrews on orders from the United States, according to a dispatch reaching this city. It is reported that Admiral Andrews has declared the United States wishes to avoid complications in the Adriatic and has notified Italian authorities that any aggression on the part of the Italian troops against the Spalato-Traù zone "will be considered a direct act against the United States." Advice states that American food supplies are to be removed from Spalato. That city has been one of the centers from which relief work in Jugo Slavia has been directed and it is probable that it is these stores to which reference is made.

## GENERAL STRIKE NOT ADVISABLE

San Francisco, Oct. 7.—Because of strikes now in progress in various parts of the United States, a general demonstration announced for October 8, on behalf of "military and political prisoners will not be advisable," according to a statement made public today by B. D. Naim, secretary-treasurer of the International Workers Defense League, under whose auspices the movement was planned.

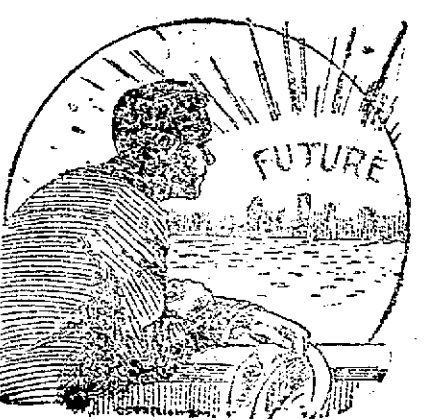

## NEURALGIC PAINS TORTURED WOMAN FOR FOUR YEARS

**Illinois Resident Was Almost Wild  
With Pain Until She Used Dr.  
Williams' Pink Pills**

"Neuralgia developed about four years ago," says Mrs. A. F. Liggett, of 1006 East Fairchild street, Danville, Ill., "and as the disease continued the pain grew worse until I was almost wild with suffering at times. The pain was constant and many nights I went without sleep. There were also severe headaches and I became very nervous. My blood was so thin that I was seldom warm or comfortable. My digestion was disordered and I had dizzy spells."

"One day, when the pain was especially severe, I heard of a woman who had taken Dr. Williams' Pink Pills with benefit and her symptoms were so nearly like mine that I decided to give the pills a trial. Within two weeks after I started the treatment I could see that the remedy was helping me. The pain became less severe and finally disappeared entirely. Then I was able to sleep soundly and it wasn't long before I began to regain my strength. My blood improved too, my nerves grew stronger and I feel better than I have for several years. Is it to be wondered at that I am glad to recommend Dr. Williams' Pink Pills to my friends?"

Dr. Williams' Pink Pills are sold by all druggists or direct from the Dr. Williams Medicine Co., Schenectady, N. Y., on receipt of price, 50 cents per box or six boxes for \$2.50. Write for the free booklet on nervous disorders.

## VIGOROUS MEN AND WOMEN ARE IN DEMAND

If your ambition has left you, your happiness has gone forever unless you take advantage of T. J. Evans' magnificent offer to refund your money on the first box purchased if Wendell's Ambition Pills do not put your entire system in fine condition and give you the energy and vigor you have lost.

Be ambitious, be strong, be vigorous. Bring the ruddy glow of health to your cheeks and the right sparkle that denotes perfect manhood and womanhood to your eyes.

Wendell's Ambition Pills, the great nerve tonic, are splendid for that tired feeling, nervous troubles, poor blood, headaches, neuralgia, restlessness, trembling, nervous prostration, mental depression, loss of appetite and kidney or liver complaints.

You take them with this understanding: that in two days you will feel better. In a week you will feel fine, and after taking one box you will have your old time confidence and ambition or the druggist will refund the price of the box.

Be sure and get a 50 cent box today and get out of the rut. Remember T. J. Evans and dealers everywhere are authorized to guarantee them.

## PERFECT EYESIGHT!

If Perfect Eyesight could be purchased it would outsell Liberty Bonds or any stock on the market.

Perfect Glasses are the only substitute and they may be purchased here.

Our many years' experience in fitting all kinds of defective vision enables us to correct the most difficult cases.

Poor eyes throw the whole nervous system off balance. Our glasses will positively correct this fault and give you relief from eyestrain.

It Is Easier to Retain Good Vision Than Regain It.

## NEWARK MAN WINS NAVY RANK IN TWO YEARS

Enlisting as apprentice seaman two years ago in the navy, Charles Marion Thorpe, 113 Columbia street is home on leave with the rank of ensign.

Ensign Thorpe enlisted in Newark as an apprentice seaman on December 15 and was sent to Hampton Roads on the U. S. S. Lake Huron. Later on the U. S. S. Buck, a tanker he made five trips across. He saw service on the Buck for 12 months and participated in a scrap with a submarine. Thorpe received a recommendation from the lieutenant of the navy for courage under fire. He was promoted from second to first class machinist, and later to chief machinist.

He was recommended to the Stephens Institute, a government engineering school by the chief engineer and captain. April 1919 he was rated as a warrant machine and on June 14, 1919 was given a commission as ensign for four years.

## LIBRARIANS WILL MEET.

Youngstown, Oct. 7.—Announcement was made today of the program for the annual meeting of the Ohio Library association to be held here on October 13, 14 and 15. Miss Olive Jones, Columbus, will make the president's address, while other speakers include John Foster Carr, New York; Professor Herbert Miller of Oberlin; Professor Hall Quest of Cincinnati; George B. Uley, All-American Library Association, and William W. Bishop, librarian of the University of Michigan. An elaborate program of entertainment also has been arranged.

## Grape-Nuts
